GREATEST DISCOVERY OF THE AGE.

☞ *Ladies and Gentlemen read this. It will interest you all, both old and young.*

PROF WOOD offers for sale an article containing no stimulating spirits, no mineral oil, nor one unhealthy drug, which will restore gray hair permanently to its original color, in a very short time, render it soft and glossy in appearance, more so even than under the influence of oil of any description, and if the hair is gone it will soon bring it out as abundant and beautiful as before, and it is also a sure remedy, and falling off, it will arrest this tendency at once, and restore it perfectly. It will remove all dandruff, from the scalp, as well as all disagreeable itching. It will remove any cutaneous eruptions, such as scald Head, &c. It supplies the natural nourishing matter to the oil glans whose office it is to supply those secretions, and, acts as a tonic, and thus restores them to their original vigor and strength. In short, it is precisely what has been so long sought in vain—viz: a perfect hair restorative and dressing, for both old and young for it will in a very short time make the hair of any one, no matter how aged, in original color, and as soft and beautiful as when they were but eighteen, and it only occasionally applied it will render the hair of the young much more beautiful than under the influence of oil. Those who have used Prof. Wood's Restorative occasionally at will never fail to indorse it. In some cases where the patient is perfectly satisfied from its effects upon himself, (for it IF he had was white as the main 70, and now no one could imagine he ever had a gray hair,) that if this preparation is kept on hand, and used once in a week, that persons will never have a gray hair in the gentleman or lady should live to be a hundred years old This preparation is no humbug, nor the result of casual information of the writer, it has been submitted to the most thoroughly tested upon the most respectable and intelligent, I may say scientific, gentlemen of St. Louis and vicinity, and gentlemen known for their great talents and strict integrity, the proprietor will at present only select from the many in his possession the following certificates, as they are nearly all known to many citizens of St. Louis.

STATE OF ILLINOIS, }
CASTLE, Sept 27, 1852 }

I have used Prof. O. J. Wood's Hair Restorative, and had admired its wonderful effect My hair is becoming, and thought prematurely gray, but by the use of this "Restorative," it has assumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex Senator United States.

VINCENNES, June 15 1853.

Prof. O. J. Wood—Dear Sir As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used and known others to use it That I have for several years been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it healthy action, and producing appearance, and all this without discoloring either the hands which apply it or the dress on which it drops I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair

H. WILSON KING, of Erie, Pa.

ST. LOUIS, June 29, 1853.

Prof. Wood—Dear Sir As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state, that my hair was a few months since very gray, and after using two bottles of your Hair Restorative it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it, as it gives the hair not only its original color, but it gives it the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

H. L. STEWART

ST. LOUIS, June 14, 1853.

Prof. Wood—Dear Sir: Since I have used your recently discovered Hair Restorative, and you request my opinion of it, I will state, for all whom it may concern, that at the age of thirty eight I was gray as the man of seventy, and my hair falling off, so that I was almost completely bald, besides, I was much troubled with dandruff and disagreeable itching, but after using several bottles of your wonderful Restorative my hair resumed its original color, the dandruff disappeared entirely, as if by magic, and all itching, and the hair became soft and glossy in appearance, and this I feel I am under obligation to say is, view, of the benefits received I would not hesitate to state that I now have a near crop of hair and no person could even imagine that I ever grey

G. MERVIN

BRIDGEPORT, June 10, 1853.

Prof. Wood—Dear Sir: Since you request me to give you a statement of the effects of your wonderful Restorative upon me, I cheerfully state in reply, that I have now used three bottles of it, and although my hair when I commenced its use was a silvery white (not a yellowish gray) it soon assumed a shade precisely its original color, and so perfect that my friends all thought I looked twenty years younger than usual, and scarcely knew what to make of it, that they considered a perfect miracle, until I informed them it was but the result of a few weeks use of your so called Hair Restorative I will also state that I was much troubled with dandruff and itching, particularly when perspiration had imparted only three or four applications to remove all dandruff and itching and although my hair h d fallen off until I was somewhat bald, I now have a fine head of hair, both in color, fullness and texture, as I had when but a youth, and quite a curl naturally Use proper for me to state that I commenced the use in August last, and used none since January. I have no doubt therefore but that the change is permanent one. I can therefore recommend it as the most wonderful discovery of the age in which we live

S. M. RANDALL.

Reader, if you are gray-headed, or if your hair is falling off, you surely have the means within your reach of restoring the color, as well as restoring the growth, and that, too, without applying a dye, for it does not color, but entirely stops the secretion of gray hair and restores them their original vigor and strength. The best wish to preserve those beautiful locks and ringlets, of which you are so justly proud? Then call at No. 125 Market street, between Fourth and Fifth, St. Louis, Mo., and possess yourself of a bottle of this wonderful restorative. Many have made the remark that five hundred dollars would be no temptation to have to be placed where they were to do use, and you will see no other using it. The materials of which it is composed are perfectly healthy and not operating. The effects are pronounced by one of the best practical chemists in the United States, viz: Prof. Charles G Page, of Washington City, who had a bottle together with specimens of all the different ingredients, for inspection at the Patent Office, in January 1853.

Boots and Shoes.

We wish to say, in tones so low,
They can't be heard in Buffalo,
That when she comes to change our gauge
And puts all Erie in a rage,
WILCOX & NORTON'S Boots are right
To arm our citizens for a fight.
Now if about these Boots she hears,
And, taking counsel from her fears,
She finds it more discreet to run
Before the fight is begun,
We win the field, but borne the fun
But if the conflict she begins,
No earthly power can save her shins;
When turned they start at double quick,
We'll pay back with a thundering kick,
And urge them on, kick after kick,
And press them like a load of brick.
Now hear, ye outside rebel nations—
Learn wisdom by these explanations,
And though you like the flattering unction
That Erie deems our function,
When'ere you come, though cast your numbers,
And with them all your powder thunders,
You'll soon be taught its consternation
Her sleep is but recuperation.
Too late you'll bring the sad mistake,
And find our city fully awake.
Here's our advice will you refuse it?
What comes of grace, so take and use it
But think not words to abuse it.
For Erie boys will fire the music,
And now we say, in all good nature,
Your gold which bought the Legislature
You could to better purpose use,
At number ten, for Boots and Shoes.

FRAUD!

ALL who want Axes of the real Collins & Co. make, should be particular to notice the stamps, as there are various counterfeits and imitations stamped Collins and labelled much like ours, which are fraudulently sold in some parts of the United States as the genuine. They are made in different parts of the country by various axe-makers, and are generally of very inferior quality. The genuine Collins axes, which have acquired such an extensive reputation, are invariably stamped "COLLINS & CO. HARTFORD," and each axe has a printed label with my signature. It is now more than Twenty-five Years since we commenced the business with the stamp of "Collins & Co. Hartford," and I do not know of any other axe-maker by the name of Collins in the United States. PROFESSIONAL INSURANCE COMPANY,

HARTFORD, CONNECTICUT.

ESTABLISHED 1825.

Capital $300,000.

This Company have its operations upon such a perfect plan of cash premiums, well-selected risks and long experience in assurance business, that the assured in all connections are protected. The Company receives from almost innumerable sources, and in small sums, a large annual deposit From this fund, held as a public trust, losses are paid This is the only plan of Insurance which can long deserve the public confidence, and the undersigned Agent confidently invites his friends to secure themselves at his Agency, against

Fire or Lake Risks.

The advantages of this contract need scarcely be urged upon wealthy men, or merchants, for they rarely neglect it, and if they do *fire leaves them other resources.* It is especially valuable to laboring men, mechanics and others of moderate means—who, perhaps, have little less than a home and its contents in the world.

These should never neglect to insure; a fire which may visit them at any hour, would leave them homeless, and with no capital but their labor, to begin again the struggle of life, and years of toil and watching must pass before they can regain whatthey have lost, if indeed it ever be done To such, insurance is a duty. If the individual is worth little, the expense is less. If he owns *much property, still the expense is trifling,* and by investing a few dollars he is safe If he is overtaken by misfortune, and his all laid in ashes, he receives a recompense in a cash capital equal to his loss, and may soon restore what has been destroyed.
