The Sunbury and Erie Proposition

... ...Senate of the State on Friday afternoon ... ...the consideration of the Bill to transfer the ... State Road to the Cleveland, Painesville ... Ashtabula company. Mr. McCrabb, Speaker, ... the following communication from the ... of the Sunbury and Erie Company

S. M'CARTER, *Speaker of the Senate*

... ...information of the Senate, which has now ... ...the consideration of the subject of the dis... ...to be made of the late Franklin canal rail... ...and of the right of way between Erie and ... State line, I beg leave to make the fol... ...statement as to the present situation and ... prospects of the Sunbury and Erie railroad company.

The subscription to the capital stock of the said company exceed $5,000,000, including that recently made by the city of Philadelphia.

That portion of the line extending from Sunbury to Lock Haven, a distance of sixty-four miles, has been placed under contract on favorable terms, to an efficient and energetic firm of railroad contractors and the distance from Milton to Williamsport, twenty-seven miles, is nearly graded, ready for the rails, and is expected to be completed by the 4th of July next, at which time the Catawissa road to Milton, and also, the Williamsport and Elmira road will be completed so as to form a continuous railroad communication from Philadelphia to Elmira through the New York roads, to the Lakes and Niagara.

That portion of the road from Lock Haven to the city of Erie will be put under contract at the earliest day practicable, and pushed to completion with all the energy the means of the company can command

One of the conditions of the subscription, on the part of the city of Philadelphia, is, that a proportion of the money shall be expended between Ridgway and Erie and the charter of the company requires that the road shall be extended to the harbor of Erie

The company has also expended a large sum of money in the improvements at that harbor, on the property so generously donated to them by the city of Erie, and these improvements are still in active progress

With the means that the company can now command there can be no reasonable doubt that the *whole line* of the road may be successfully and speedily prosecuted to entire completion.

PHILIP M. PRICE,
Secretary Sunbury and Erie R R Co

FATAL ACCIDENT ON THE DAUPHIN AND SUSQUEHANNA RAILROAD.—A fatal accident occurred on the above road, some two miles south of Rauch's Gap station, at about two o'clock, on Friday last. The train from Harrisburg was on it way to meet the down Reading train, and had reached Rauch's Gap, where a new locomotive destined for the Reading road, one of the ten built by Ross Winans, was attached to the train, and the other withdrawn. A car loaded with flour was also added. The passenger and freight train with the new engine, had made some two miles of the road, when the engine ran from the track dragging with it the front passenger car, which, with the engine, was thrown down the bank and overturned, while the second passenger car hung on the edge. Both car and engine were very much broken, the passengers happily escaping serious injury, although several were thrown over the seats and slightly bruised, but the conductor, we are grieved to state, Mr Daniel Nattys, was so badly hurt that he died in a few hours afterwards, and a man employed on the road had his leg broken. The engineer and fireman escaped unhurt. The escape of the passengers was truly miraculous, as they fell down an embankment, completely upsetting the car.—*Pa.*

ATTEMPT OF SPAIN TO JOIN THE WESTERN POWERS.—The Paris correspondence of the London *Times* intimates that Spain has declared her willingness to join the Western Power in the present war, on condition that France and England should guarantee to her possession of Cuba

I alluded some days since to Spain's connection with the great question which for the last 12 months has occupied the attention of Europe, and which promises to agitate it for a long time to come. The condition on which, according to the opinion of some persons of authority in that country, the Spanish Government might declare its sympathy, and perhaps give its co-operation to the Western Powers, is one which would not fail to add other and serious complications to those which already exist—namely, that France and England should guarantee the security of Cuba against the attacks of American adventurers. Whether any formal propositions have been made to that effect, or whether the English and French Government has been sounded on this question, I am not aware. At all events, private letters of the 30th, from Madrid, assure me that the Spanish Government have declared that they will maintain the strictest neutrality.

A WONDERFUL TALE ABOUT GENERAL HAYNAU.—CORPSE.—A most extraordinary report has reached us in a private letter from Vienna on a high personage here, and has been the talk of our circles for the last few days. It appears that the circumstances of the death of General Haynau presented a phenomenon of the most awful kind on record. For many days after it, all the warmth of life had lingered in the right arm and left leg of the corpse which remained limpid and moist, even bleeding slightly when pricked. No delusion, notwithstanding, could be maintained as to the reality of death, for the other parts of the body were completely mortified, and interment became necessary before the two limbs had become rather stiff or cold. The writer of the letter mentions that the strange circumstance produced the greatest awe in the minds of those who witnessed it, and that the emperor had become so impressed with it that his physician had forbidden the subject to be alluded to in his presence. The statement was copied from a French paper immediately after the decease of General Haynau was known in Paris.—*Notes and Queries.*

ORDINANCE

Resolved, By the Select and Common Councils of the City of Erie, and it is hereby *Resolved* and ordained by the authority of the same that a special tax of ... mills on the dollar of valuation of all ... liable to taxation, assessable for city purposes, and the same is hereby assessed, and shall be collected in pursuance of the act, of assembly entitled "an act authorizing a special tax, in the city of Erie, passed March 23d A. D. 1854, and that the same be added to the duplicate of Assessment of city taxes for the present year

Ordained and enacted this 24th day of April A. D. 1854.
Erie, April 29, 1854. A. KING, Mayor

... A Wonderful Discovery has recently been made by Dr ... of this city, in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr Curtis's Hygeia or Inhaling Hygeian Vapor and Cherry Syrup." With this new method Dr C. has restored many afflicted ones to perfect health as the evidence of which, he has innumerable certificates. In speaking of the treatment, a physician remarks—"It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process." The Hygeian is for sale at all the druggists throughout the country.—*From the New York Dutchman of January 14th.*

See advertisement of Medicated Inhalation in another column of this paper.

DR MORSE'S INVIGORATING CORDIAL.—The only sure and safe remedy, yet discovered, for general debility, physical prostration, irritability, and all the various train of nervous affections. it will also remove depression, excitement, dislike of society, incapacity for study or business, loss of memory, mental debility, &c &c.—See advertisement
