A dispatch from Dr. Rae, dated York Factory, August 4th, has been received by Sir George Simpson, Governor of the Hudson Bay Territo-John Franklin and his unfortunate company --They were starved to death in the spring of 1850. to the north-west of Fox River.

The Montreal Herald says: -"We yesterday dispatched a special messenger to the Hudson the kindness of Governor Sir George Simpson, are enabled to lay before our readers the following outlines: A dispatch was received by him yesterday, from Dr Rae, who has been absent on the coast since the 1st of June, 1853 He returned to York Factory on the 28th of August to Sir George Simpson via Red River settlement. After briefly noticing the result of his own expedition, he proceeds to state that from the Esqui meanx Indians he obtained certain information of Sir John Franklin and his party, who were starved to death after the loss of their ships, which were crushed in the ice while making their way South to Great Fish River, or Buck, near the outlet of which the party of whites died, leaving accounts of theirsufferings near their mutilated corpses, which were evidently furnished to their countanions.

The information, though not derived from the Esquimeaux Indians, who communicated with the whites, and who found the remains, but from another band, who obtained the details viva roce, may be relied on. There is no doubt left of the truth of the report, as the Natives had in their possession various articles of European manufacure, which had been in possession of the whites Among these are several silver spoons, forks, &c. on one of which is engraved, "Sir John Franklin, K. C.
