LATER FROM EUROPE The U. S. Mail Steamship Baltic, from Liver-

pool, Wednesday, Nov. 15th, at about 2 o'clock P M., arrived at her wharf Sunday morning, at 9 o'clock, bringing four days' later intelligence. The news is of much interest. With every wish to do justice to the admirable

bravery of the Allied army, and with no desire to blacken news already too disastrous, it is impossible to escape the conviction that the army before Sevastopol is in a position of great peril. is hushed up from the facts that have transpired very different inferences may be drawn than those set forth semi-officially in the London Times. The best that can be said for the news on the

part of the Allies, is, that it is of a chequered description. A succession of hard fights has been fought, and victories gained, each "victory" costing as much as a defeat. At the same timeso closely have these affairs been drawn, that advantage. the Russians, equally with the allies, claim the advantage. It is now admitted that the defences of Sevastopol were under-rated, and the force of Menschikoff in the field, altogether unexpected the 5th, under very favorable circumstances. Gens. Ragian and Canrobert, the commandersin-chief, have sent the most urgent demands for reinforcements. The haste manifested to transmit to the Crimea every available man-Briton, Frenchman, and Turk-shows the importance attached to the demand. Seven first class steamers are mken up for instant service, and others are wanted. The Cunard steamer Ains is withdrawn from the berth for New York, and sailed on Sunday, 11th, for Toulon, to embark Frenchmen. The Cunarder Europa, would sail from Liverpool on the 18th for Kingston, Ireland.— The Peninsular and Oriental (Mediteranean) Company notify that they have received imperative orders to withdraw from the mail service the steamers Candia, Ripon, Manilla, Nubia, and Rajah, for immediate reinforcements to the Crimea. The Steamer Indiana, just arrived from New-York, and the West Indiana mail steamer Thames are also taken up. The engagement of the Cunard steamers will not-in the meantime, at last-interfere with the weekly mail service to America.

CURRENT EVENTS OF THE WAR.—The Intest intelligence sent us by our correspondent, per the steamer Canada, was, that in the battle of the 26th, a thousand men and 600 horses, belonging to the English, were killed in 3 hours by a large force of Russians. This intelligence reached Liverpool but a short time previous to the sailing of the Canada, and as may be supposed, caused universal surprise and pain. Farther advices confirm the main features of this terrible disaster, but fortunately, not to quite so great an extent® as was at first reported. Sad to relate, the charge of cavalry that precipitated so many into a certain destruction; was the result of a misconception of orders arising from at last, of a misconception of corps that induced the cavalry the especial decorps that induced the cavalry to be expended in the partial of the first the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester that the removal would be reformatory in its character, by "giving us stronger and honester to character, by "g Alms. In short, misconstruing an order from the Commander in chief, conveyed by Captain field. Nolan, Lords Lucan and Cardigan rode the light horse over a plain a mile and a half in length, the operations of the siege continued, and that and exposed to a cross fire, full at a Russian the allies were entrenching themselves on the left battery of 30 guns! The attempt was madness flank of their position. and the result destruction. The troops were:
