enemies no memorrhy in the world can destroy. AVELHAM. The Flon. John Slidell was last week reelected, by the Legislature of Louisiana, a Sena. tor in Congress for six years from the 4th of March next, when his procent term will expire. Judging by the large majority which Mr. Slidell is reported to have received in the Legislature, we presume that there was no serious opposition to his re-cles tion.

Y., and afterward a Miss Perry of tus to the charge of bigomy was raised when marriage would be declared legally void; that she listened to his persuasion to become his wife tance, that Courts of law should be governed barian hordes, even with fanaticism, and primed that they made representations to her mother corded in the family Bible. This he did, and the fact that hey were not married was studiously concealed from the knowledge of her family; and it was not until Saturday that the daughter's shame came to the knowledge of her mother. The charge of bigamy was therefore quashed. Justice Cole, however, in view of the circumstances in the case, decided to hold Livingston to answer the charge of seduction, under promise

During the time that this recontre was going on between McGinty and Clark the wife escaped so a neighbor's house; but fearing pursuit from her demon husband, she left the house and went into the woods, and there secreted herself. Mc-Ginty followed to the house where the wife had retreated, and not finding her there, swore he would shoot the woman of the house if she did not inform him of the place of concealment of Butler J & P his wife. The woman, alarmed for her safety, informed McGinty the direction his wife had taken. Bent on blood, he pursued, and found her concealed in the bushes, and, horrible to relate, under his chin, discharged it, the ball passing out of his right cheek. Find ng this effort to destory life ineffectual, he discharged three balls

throat. He was found, some time during Friday night, at his own house, in bed and still alive, by some men from Cascade, in pursuit of him.-As they entered the house, he pulled the clothes over his head. They placed him in a wagon and started for Cascade, but before they reached there, life had left the carcass of this desperate wretch. McGinty and his wife are both dead, and it is doubtful whether Clark will survive -McGinty is the same desperado who, a short time since, bit a man's nose off, in the lower part of the city, and was bound over to appear at the next term of the District Court.

THE SANDWICH ISLANDS .- We recently published a statement made by the Washington cormerce to the effect, that the American Government had made a positive pledge to the British and French Government in 1843, through Mr. Upshur, then Secretary of State, that they would not possess themselves of the Sandwich Islands. This statement, if we are to credit the correspondent of the New York Courier and Enquirer, that this Government would not seize the islands and subvert their independence, as had been done ernment voluntarily sought admission into the Union, or should, without coercion consent to annexation, the United States would refuse or neglect the opportunity of extending its jurisdiction over the group. The islands had been seized by violence, and the aggressors bound themselves to abstain in future from such attacks, if we would do the same. Annexation would be no infringement of this arrangement. But Mr. Unshur had no authority to make the agreement which it is conceded he did make, nor could he bind the country to any other, without. The ly hatred of oppression and injustice springing informal understanding to which he consented with the Ministers of France and England, has from the soil of intelligence without. Such been respected by this government, and is not proposed to be violated.

ANOTHER "INFERNAL MACHINE" CASE AT CINCINNATI.-A diabolical attempt was made on Monday evening to destroy the family of Mr. Cyrus Swishelm, at Cincinnati; the particulars of which the Enquirer gives:-

"On the evening in question Mr. Swishelm and family, consisting of five persons, were seated around the fire, when a huge ball descended the chimney, and, bonneing into the fire rolled in a bright blase into the middle of the floor. It was made of cotton, saturated with turpentine, and during its brief contact with the fire, had become ignited. Luckily, a pail of water was standing near, and Mr. Swishelm, catching the burning ball in his hand, instantly immersed it in the water and extinguished it. Upon opening the ball, it was found to be filled with gunpowder and sings, and fortunate indeed was it for Mr. Swishelm and his family that the water was near, as otherwise he says he should have hurled it into Snow is a Quebec on the 18th inst. was the fire, in which case, in all probability, it would
