Herein the miner may read about himself.

If he be an unsuccessful miner, this is his character: He knows California to be a humbug. In his judgment the mines must soon give out .-He thinks that if he had arrived in 'forty-nine he could have made his fortune. But not in digging. No! Hard-work is not what he was cut out for. There was a fine opening in 'forty-nine for any man of talent and energy to speculate in real estate. He don't believe half the talestold about profitable mining. People can't fool him with their stories. California being a humbug, he would go home if he hadn't to admit when he got home that Jim and Tom knew just how it would be—that they were right and that he was wrong. He won't admit that. He will starve first. He is pretty nigh starving. He could go and work by the day for the Rattle Gulch Water and Mining Company, but he likes independence; and, as he has his mind to cultivate, objects to doing forced labor for more than eight hours a day. Prospecting is, in his opinion, the respecting Smith's guilt was evenly balanced.
