General Miscellaneous Matters.

Murder of Capt. Staunton, U S. Army.

INDEPENDENCE, March 22.

The Santa Fe mail arrived to-day, having left that city on the 1st inst., bringing the latest intelligence, and as passengers, Don Alvares and Mr. Mereure. The mail came safely, notwithstanding the dangers which surrounded it.

A hasty glance at the intelligence leads to the conclusion that everything there tends to war and confusion.

An article in the Santa Fe Gazette of the 24th ult., describes at length an expedition into the Mercolero country, and the death of Capt. Staunton, of the United States army, and two men.—They were killed in an engagement with the Indians.

Santa Anna, the head chief, and fifteen or twenty of the tribe, were also killed. Another article, in the same paper, and some private correspondence, speaks freely in favor of an increase of mail facilities.

The inhabitants of the country are few, surrounded by hostile Indians, and need protection; and the present mail arrangements do not enable them to make their wants known, or to derive assurance of relief.

The Indians are committing depredations and shocking outrages in every quarter, and no one doubts the necessity, of giving them a thorough chastisement.

An article in the Gazette of the 17th, mentions the appointment by Gov. Merriweather, of Ceran St. Vrain to the command of a battalion of volunteers, raised for the protection of the inhabitants, and commends the wisdom of selection. There is now the utmost danger to any train traveling over the Plains, without an escort of soldiers.

Hostilities seem to be spreading from tribe to tribe, on the whole route, threatening to break out in deeds of violence and outrage everywhere. Something should be done.

FROM AUSTRALIA.—The latest arrival from Panama brought Melbourne dates via Callao, up to the 9th of January By the official account of the military rencontre with the gold diggers at Ballarat, we learn that the collision occurred on the 31 of December; thirty of the insurgents were killed, and a much larger number wounded. The Government troops had a captain wounded in the storming of the rebel barricade, and a number of soldiers were killed. The papers blame the Governor as the cause of the disturbance, and censure the management of the gold licensing The local journals report that the soldiers acted in a merciless manner. Martial law was proclaimed at Ballarat on the 6th of December; but the Governor General revoked the order in forty-eight hours, and applied to the Legislative Council for a bill of indemnity to secure him against the consequences of the responsibility he had assumed in announcing it. The gold license system was universally reprobated by the press.

AN ITEM.—If you aint piously inclined yourself, never make an evening call upon a lady, without previously ascertaining whether that particular season may not be devoted to a prayer meeting—rag party—or monthly concert for the improvement and conversion of the heathen. Our friend Slimlegs found himself in "a fix" of this kind last week Instead of a wide-lapped rocking chair, subdued tallow-candle light, and Miss Maria to greet his vision, on making his grand *entree* into the parlor, he was brought face to face with a dozen vinegar-faced spinsters and an old fogy with a white cravat, who in a hoarse whisper was denouncing the Jews, while he energetically pounded the hair cushion against which he was leaning. Slimlegs' sentiments upon the subject of kneeling two hours in tight breeches, with something itching among his hair at the same time, are rather indicrous, and will be freely communicated to all young and interesting "lawyers" who might perchance get themselves into a like situation.

GEN. SAM HOUSTON.—A late telegraphic despatch from the South, says that Gen. Sam Houston is about to issue a circular letter announcing himself as an Independent candidate for the Presidency.—He will be a fast *hoss*.

NOTICE OF REMOVAL.

DR. LA CROIX, the discoverer of Rheumatism in the system, has taken possession of the splendid new edition, which he has recently erected at No. 31 MAIDEN LANE, and will be happy to meet with those who are desirous of consulting him on the "peculiarity," to which he devotes his undivided attention.

His Dispensary is now capacious and replete with every convenience which modern improvement can suggest, such as hot and cold water, water closets—the apartments are all warmed by means of a hot air furnace, and lighted throughout with gas The premises No 66 Beaver street, so long known as "Old Galen's Head Dispensary," and which Dr La Croix has occupied for the last eighteen years, was found to be inadequate for the great increase of business with which he has been favored He was therefore compelled to seek an more capacious apartments The office will be found very convenient to strangers, from its close proximity to the depots of the Central, Western Hudson River, Harlem and Morrises Railroads, (all of which are at the termination of the street,) as well as the principal Hotels The Dispensary is conveniently arranged with seven apartments, (the whole building being used for the purpose,) and is well adapted to facilitate the consecration of the patient without fear of exposure, as they will not come in contact with any one but the Doctor.

A NEW AND REVISED EDITION OF THE PRIVATE MEDICAL TREATISE

By LA CROIX, on the Nature, Treatment and Radical Cure of Nervous Debility, and all Diseases of a Private Nature, resulting from the Indiscretions of Youth, the Excesses of Manhood, or the Decline of Life, embracing a Physiological View of Marriage, being a treatise on the infirmities of youth and maturity, illustrated with upwards of one hundred and twenty-five colored engravings, for 25 cents. This is the cheapest work ever published, and every one should purchase it every one ought to read. It contains valuable information for the young and the old, the sick and the healthy, the child and the parent

It treats of all diseases of female, whether married or single Hints to those who desire to marry Advice to those who contemplate Marriage Strangers who require medical aid before consulting any doctor, ought to see Dr La Croix, whether he cures are properly understood by those whom they employ, and thus guard against the imposition of quackery, so prevalent in the present day. Hence the advantage of a popular knowledge of oneself, such as is given in this work.

NEW REMEDIES AND QUICK CURES.

DR. LA CROIX offers to all those who desire to consult a professional person, the result of 20 years experience in the Hospitals of Europe and America.

YOUNG MEN—Let no false modesty deter you from making your case known to one who, from education and respectability, can alone befriend you. He who places himself under Dr La Croix and his treatment, may religiously confide in his honor as a gentleman, and in whose breast will be forever locked the secret of his patient. There are very few men in the world in whom it is safe to repose confidence—especially in cases of a delicate nature The many pretenders to medical sciences with which the country is filled, and the many disappointments to which the unfortunate victims are subjected by consulting such men, renders it a matter of mere justice to caution the public against them, and point them to the sure "haven of repose." which is under the management of the celebrated Dr La Croix, No 31 Maiden Lane, Albany, N. Y.
