Thompson's bill was to have been up in the Senste Yesterday. Of its probable fate all was in doubt, when we went to press. We hope for the best, despite the money of the rail road commany, and the corruption of modern Legisla- | bor. and crush out her aspirations as a commer-

A CONTRAST -As we said last week, in times past there were two papers in this State that led she van in denunciation of the acts and principies of all oath bound secret societies . One was the Pittsburgh Guzette, and the other was the Erie Gazette. But, as we further remarked,-"things aint now as they used was"-a fact we propose to show by contrasting the course of the two papers towards a recent event Two weeks since an election took place in Cincinnati. One candidate was supported by the people opposed to the secret, oath bound political association, called Know Nothings. The other was the nomince of that association of midnight conspirators. The election progressed quietly until it became evident "Sam" was shorn of his strength, and then his followers rushed upon the ballot-boxes in one ward and deatroyed them. This act done, they thought their victory achieved The next day, however, it appeared that notwithstanding their outrages the night previous, they were defeated. Determined not to be foiled, these "pure Americans" went to another ward, and destroyed the tally sheets and ballot-box there. These series of outrages, perpetrated confessedly by the members of a secret association for political purposes,-outrages unparrelled in the annals of American politics-is heralded all over the coun-

try, and creates a profound sensation. Now what does this Krie Gazette-this paper opposed to secret political societies, that used to shake the bones of Billy Morgan at its readers every time a borough election took place-ay in regard to such proceedings! Say? Why, it says nothing -it plays mum! It has wasted all its thundars upon poor old Masonry, so that when ballot boxes are destroyed, and lives lost, at the beck of a secret political cabal, it has nt even the speaking powers of the animal bestrode by Baalam! It has hardly even told its readers that such an outrage has taken place And yet "it

has a forcible article urging upon the Legislatur and become a law?" This is the first and last inthe passage of Thompson's bill. The Inquire takes a correct view of the measure, and claims for it the character of a question of state policy. in which Philadelphis is deeply interested. This is so; no measure has been before our Legislature for years in which Philadelphia has so deep---so which placed in her hands, as this bill proposes. will give her the control of the vast trade of the West. That trade must pass this point, and it has been the steady and inflexible policy of New York, that it shall pass as far from our Harbor as possible, and in a manner the least likely to give Philadelphia a chance to compete for it by the Sunbury road. If this is not so, why the struggle to deprive Erie of her just rights ?--- to make her a mere way-station---to ignore her har-

eial and manufacturing point? All freight from the West must break-bulk, as the road is now built, at Dunkirk or Buffalo? We say must, because the road from Buffalo oust is one width of track, and from Buffalo icest of another Now, unless there was a purpose --- a purpose to cheat the State of Pennsylvania, and the city of Philadelphia-why did not the managers of the Buffalo and Erie road lay its track of the same width of the Albany road, and thus enable them to run their cars from Albany to Erie, and make us the great, transhipping point instead of Buffalo? Simply because, had the managers of that road The question of future construction was not ar one so, the Sunbury Road would then have been gued before them. The ability to build was the an equal competitor for the trade New York 'look out'' of the company, and not the business seeking to monopolize.
