Topics of the Week.

"Will Thompson's bill pass the Sanate?" has been the local inquiry this week, as indeed it has been almost every week for come time. Opinions as to the probabilities have been various, but hope in the honesty and incorruptibility of the Schate, has been Frrong. This hope has been strengthened by the apparent want of confidence on the part of the railr and men, and their orgain. the Constitution. The announcement last week this week, was haued as a good indication, and when the telegraph on Wednesday announced that it has passed the ordeal of second reading without amendment, the hope and almost certainty, of final trium; the spre is a genial smile over every countenance. The probability is we will have the pleasure of announcing its final passage, or the unpleasant duty of chronicing its defeat, in this number of our paper, as it was to come up for third reading on Thursday

The Judge, who is a man of decided ability, made such a speech as carried conviction to almost every man's mind who heard him. He is calm, dignified, and convincing in his arguments; courteous and gentlemanly in his manner, and accurate in his matter Judge Thompson understands the subject of State's rights perhaps better than any other man in the Honse

That Know Nothingism is a great "institootion," is now a self-evident fact—that is, if three splendid coup de ctates makes a thing selfevident. For instance, the "instituotion" in Massachusetts, appointed a committee to investigate martyr—one whose fault was too intense and deall the Catholic schools in the State, and they did it. In Cincinnati the ballot-boxes interfered with its progress, and it destroyed 'em! In Cleveland a boy, who was a cripple exhibited his feats of slight of hand, and Know Nothingism, in the person of the City Marshal, came down on him like a June-bug. So you see, this "institootion" is death on school girls, bullet-boxes, and

A New Orgain The Buffalo Commercial, and other Know Nothing papers, are publishing with great gusto a long article from the London Times approving of the platform laid down by that purely "American" party. Whether the gentlemen who contrul the papers referred to ever beard the followers of "Sam" shouting their meaningless motto. 'None but Americans to rule America;" and if so, whether they laugh in their sleeves when they gravely parade this first instalment of "aid and comfort" from their new and purely "American" organ, the Lundon Times, is a question we will leave to be answered by the Yankee skill at guessing of our readers! It requires, however, ance in America, is nothing strange; but that

BABBITT & KING. All honor to the Legislature of our glorious old Commonwealth! All honor to the untiring energy of those tried, true and faithful representatives of Erie, Thompson, Skinner and Ball! To our immediate representatives our citisens owe a deep and asting debt of gratitude, which all the honors they can heap upon them for years will scarce suffice to pay.
