### Democratic State Convention.

Such a state of harmony was what | himself to such a scheme of Know Nothingism; might have been naturally expected from the history of political movements during the past year. with regret, at his course. They were all men known throughout the State, and with any one of the number for a standard-bearer against the distracted and coniused ranks of the opposition, we might probably have obtained an easy victory" In regard to the resolutions, understood to be the production of Col. Black, they have the ring of the two metal; taking broad national ground upon the issues before the countray, but judiciously avoiding collateral and side issues about which men honestly differ, yet still adheare to the cardinal and allessential principles of the party But they are before our readers, and we need not comment

## The Result at Harrisburg.

The city of Erie has now been at the expense of sending two committee to Harrisburg to fathom the depth of the Governor's pocket; but in neicertaining the length, breadth and depth, of that capacious receptacle The first committee, as our readers know, thought they had obtained a sounding, but it is now evident their "lead" rested upon and told the people of Erie that upon certain conditions the Governor had given them to unconditions were complied with; and upon the strength of their assurance, another committee repaired there, in part composed of the same gentleman as the first, for the purpose of either carrying out the conditions of the compromise the city had accepted, or claiming the fulfilment of the Governor's promise! There this committee met the representatives of the Railroad Company. and learnt that the company would not agree to doubtless thought their constituents at home -But, put not your faith in Governors, and especially of the genus Know Nothing. They are as "slippery as an cel," and as uncertain as an old maid's age. And so our second committee found out, to their no small astonishment; for, instead of signing the bill, and sending them home rejoicing, he very bluntly gave them to misunderstood him; in fact he had not, and would not then promise to sign the bill The most they could get out of him, was that he would not veto it. But what does this amount to, judging the future by the past? Nothing' He may veto it to-day, and yet be as consistent in doing so, as in sending the Committee home in the first instance with a promise he never intended to keep. For twist this matter as you may, there is deception, to call it by no harsher name, somewhere Rither the Governor deceived the committee, or the committee deceived the people of Erie, and we do not believe it was the committee! And this, fellow sufferers of Erie, is the result of that rebuke you helped to give the "Kansas fraud" last fall in the person of Gov Bigler! But no matter, the "minions of the Pope" were "hurled from power," "Americans were put on guard," the "Bible was vindicated," and Pollock elected With such a "glorious record" of "glorious results," what care you for "Thompson's bill" or "rail road compromises" Are not the kinks in Kansas negro hair all made straight? Demodratic State Conviction.

Contrary to our expectations, the Democratic State Convention which met at Harrisburg on the 4th inst., was fully attended, numbering about one hundred and twenty-five delegates. Wilson Laird, Esq., who happened to be in Harrisburg, was admitted as a Delegate from, and represented Brie county. A temorary oganization was effected by calling Hon. John B Guthrie, of Pittsburgh, to the Chair. It was afterwards permanently organized by appointing Hon. J. Glancy Jones, of Berks county, as Chairman. After the usual preliminaries, nominations and ballotings were had for the office of Canal Commissioner. Quite a numer of candidatas were presented, but the most prominent before the Convention were Hon. Arnold Plumer of Venango, and William S Campbell, Esq., of Allegheny county. The following was the result of the ballotings for

Sixty-three votes only being necessary for choice, Mr. Plumer was declared duly nominated. On motion, the nomination was made unanimous. A committee on resolutions having been appointed through Col. Black reported the following,
