

New for a General Booboo.

It has been announced by telegraph that the President has seen fit to remove Gov. REEDER, of Kansas, and appoint Gen. JOHN L. DAWSON, of this State, to fill the vacancy.

We have another arrival from Europe, the Asia, but there is precious little news. Sebastopol does not appear to have been taken, even on paper, and the Allies are still the masters of their own actions—a fact, their sympathizers upon this side of the water ought to be duly thankful for.

SENATORIAL.—The Conneautville Courier does not favor the idea advanced by the Gazette that Col. BUTLER, of Crawford, would prove acceptable to the opponents of Finney for Senator.

It is a true remark of the Washington Union that there are but two parties in the United States. This is so because in a republic there is but but two elements, or rather two streams of political thought, and these streams must furnish the living element to all governmental measures.

WHERE THE CLAY WHIG ARE.—JAMES B. CLAY, Esq., son of HENRY CLAY, and the present possessor of Ashland, addressed an immense assembly at Lexington, Kentucky, on the 9th inst., and administered to "Sam" a most tremendous flogging.

The story of a little girl at Gilmanston, N. H., being carried by a couple of Black Snakes, which has been going the rounds of the press for some time, and which has doubtless been swallowed by the credulous with a gusto truly astonishing, has exploded.

By our fifth, gentlemen are becoming sensible now. The sun and the air once more took a walk with a clerk's palm, of a summer's day.

How many old things are departing from our land. Old politicians have gone, old parties are going, old platforms breaking down, old society going to the sleep of death, old fashions, and notions, and ideas vanishing before the new, the young, the fresh, the wide-awake and all-wise activity, which electrifies the land.

Talk of music for instance, why do a portion of "our folks" insist upon transplanting the Opera of old Europe here. It don't take kindly to the soil. The music is fine and scientific, and our citizens accomplished, but it is the flowers of an effete civilization. We want something to suit the climate and the age.

Such an exhibition of the absence of the common delicacy of our nature was never before beheld, and we regret to say that she found those of her own sex who unblushingly sat through an exhibition which was bad enough to render the party subject to an arrest for indecent exposure of person.

The above, from the Buffalo Democracy, is a fair sample of the candor of fanatical abolitionism. The writer is speaking of the removal of Gov. REEDER, and the appointment of Gen. JOHN L. DAWSON in his place.

"The wild hunt for office," which the Know Nothings at Philadelphia pledged themselves to discontinue, does not appear to abate, notwithstanding. Indeed, so far as we have been able to judge, that "wild hunt" appears to prevail with even more violence than ever since Know Nothingism found a "habitation and a name" among us.

"We are no longer disposed to be made cats-paw for designing demagogues, to pluck from the hot ashes of political contention all the honors and profits, while our principles are not in the least advanced.

THE WHIG STATE CENTRAL COMMITTEE, about which there has been some inquiry lately, among old-line Whigs, met in Philadelphia last week, it is said, and after organizing, fixed the 11th day of September next for the meeting of the Whig State Convention at Harrisburg.

THE KNOW NOTHING PLATFORM is a plastic affair. In this state, it is against the principles of the order to allow men with Catholic wives to become members; but in Kentucky it has been found necessary to admit men with wives of that proscribed religious faith.

NEW YORK.

The glory of glorians departed. Male Broadway is gloomier. Merchants ride down with their hands in a state of nature and walk up their heads.
