Dr. Butt. A remarkable instance of the influence of your remedy apon the reasonation of the frame, and the all-but intractious resuscitation of a body weakened to the last degree by the excesses of animal indu genes, one arred in the case of an eminent manufacturar in the victority, whose modest, and not want of inclination, precludes him from a publication of the detailed circumstances of the stiffly integrities, which i restence to the termination even his afflicting trease, which i restened to determine into a settled case of promonitory lepross. The inhabitants of Philadelphia and vicinity. I propose to cure almost instantaneously, individuals afficied with Hendache, Neuralyia, Chill Pever, Ague, while the parmyon is on a Rheumaism, and all Bronchial affections.

I propose to check and effectually dissipate more ache and pain, and to accomplish nearer and more parfect equilibrium of all the circuisting fluids in the human system than can be offered by any other or all other methods of medical and in the same space of time, the masses themselves being judges.

I do not propose to care every disease, but all such as arecompable by any combination of medical applicances.
