So proclaims the Gazette, in regard to Thomp son's bill, so long to the pockets of our immaculate Governor "Actually signed!" Good The is ended, and the executive is as "well as could be expected " Good, again! But the Gazette deis better still; but the best of all is the samrance of the Governor's organ here that "steps will be taken to execute the duties this important enactment devolves upon the Governor " How "soon." the Governor's dearly beloved cor ati tuents are left to conjecture. If they are to take his post action, in regard to the bill as a criterion to judge of the future, it is very evident the leaves that are now falling pefore the frosts of November will be replaced by the buds of spring before his Excllency will take the necessary steps to carry the law into effect; if he ever takes them! A thing, by the by, we very much doubt! True, he's signed the bill, but it has taken him six months to make up his mind to do it, and now another month has passed, and yet he has not moved a finger to carry out its provisions.-Good, the bill is "actually signed!"

It is a curious fact that not one of the statements by us of the unfortunate results to other cities of their corporate subscriptions, has been denied. They are facts, and cannot be controverted.—Constitution.

But the praise belongs to Alveres, untutored Indian though he be, of initiating the movement for the attainment of results so much to be desired, and which socomplished, will worthily crown the labor of life devoted to his country's service; for the connexion with every contest waged for liberty in Mexico during a period of more than forty
