

Know Nothing Victories.

There is food for deep reflection in the progress and victories of Know Nothingism. Aside from its achievements in Pennsylvania last year, and in New York and Massachusetts this, we believe there is no record of a triumph that is not written in blood.

After a careful examination of all that we have seen bearing on this point, after an unprejudiced study of the articles that have appeared on the subject in the Louisville journals, we believe that the blood of the slain in the hands of the Know Nothings. The proofs are many and convincing.

Baltimore next came in for its chapter of horrors, and although it did not prove as bloody as that of Louisville, it was sufficiently so to sustain our position that it is only by riot and bloodshed that the progress of this liberal upon Americanism obtains its most noted victories.

As soon appeared, an excitement, commenced at the eighteenth precinct, as we learn, in a contest for precedence in approaching the polls. Major Henry Balise, one of the officers of a German military company, who assumed a championship on the Democratic side, struck one of the Americans, and thereupon had a dozen revolvers drawn on him.

White a city contractor, was badly beaten and wounded. The next difficulty occurred at the twentieth precinct. A man named Antoine Pulegera native of France, who had his naturalization papers in his hand, was stabbed in the centre of his abdomen. His friends put him in a cab, and took him to the charity hospital, but he was dead before he arrived there.

THE RESOURCES OF THE REPUBLIC.—A writer in the Journal of Commerce, who seems to have paid considerable attention to the subject, contends that there is no reasonable ground for any thing like a money panic, and asks—what is the true state of the case?

Mr. Buchanan and the London Times.

The London Times of Nov. 1st, in an article of general indictment against the Government and people of the United States, puts forth the following ridiculous story about the assurances given by our Minister, Mr. BUCHANAN, to the English Court, of sympathy and aid, he needs be, cooperation in the quarrel of the Allies with Russia.

When the war in the East first broke out, and England found herself in new and unwonted alliance with France, and an equally unwonted hostility with Russia, there was no Power from which she received assurances of support more hearty, more satisfactory, and more spontaneous than from the United States of America.

We notice this slander upon our Minister being generally copied, and in most cases by his political opponents without a word of comment. The secret of this is, that the distinguished gentleman whose good name is thus impeached, stands a pretty sure chance of being the Democratic candidate for President next year, and the impression thus sown broad cast will be good capital against him.

THE DANISH SOUND DUES.—The Washington Critic says: "We have noticed some traces of a French party, and it is not surprising that the United States and Denmark are not prejudicially upon our relations with Great Britain. This we know to be a mistake. There is no difference of opinion between the two governments on the subject."
