THE OLD DRUG STORE.

FRIENDS customers and the public, high and low, rich and poor, in whose confidence we have so long and liberally shared, in accordance with custom, we beg to make our annual visit—not to call your attention to any new fashion, though there is fashion in medicine—but to assure you that through all the mutations and fluctuations, the changes and chances—varied and sad—that we, and our city have passed through we are still permitted to occupy our old location and position—just where we have been the last fifteen years—and where we still have the pleasure of inviting those whose acquaintance we formed in days long since. Fostered and encouraged in our weary round of duty, by a generous portion of the worth and intelligence around us, we hope to continue on in our old course, endeavoring to be just, kind and courteous in our intercourse with all classes, and, disclaiming all pretensions to superior merit in the articles we offer for sale, in the past, as our guarantee for the future, and feel confident that an experience in the business of over twenty years, and a residence among the same people for over eighteen, are considerations of importance in the qualification of those that fill the responsible position of Apothecaries, and to receive the attention of the cautious and prudent. We will now state, that we continue, as usual, to keep a full and complete assortment of

TO KEEP THE LARGEST STOCK.

as well as the greatest variety, in our line, to be found in this city, selected and purchased in the houses of established reputation, and from men whose character is the best guarantee for the soundness of what they sell And as the time, apparatus and means are at hand to select and test each of the hundreds of articles, Mineral, Chemical, Botanical and Pharmaceutical of which our stock is composed, in more than we can command, we prefer—and we think our customers will—the mode we have adopted as being the more reasonable and satisfactory. Still, as the purest articles, in the hands of the unskilful or incompetent, may fail in effecting satisfactory results we prefer that our articles should be judged by a different standard, and therefore, for further proof, refer to those physicians—the most honorable of the profession—with whom we divide for their supplies—and whose success is abundant evidence that they know both where to obtain, and how to administer, pure and appropriate medicines.

Our stock of Patent Medicines is extensive, embracing all those usually called for in this community—many of those highly spoken of and much used—though not having a Regular Physician in our interest to test their qualities and fitness, and being disinclined to undertake such a responsible and delicate a duty ourselves, we have good reasons for their worth—as with that degree of assurance we otherwise go in—but those we have introduced into the following departments

Medicines, Wines and Liquors, Groceries, Window Glass, Oils, Paints, White Lead, Varnishes, Dye Stuffs, Brushes, Perfumery, Fancy and Miscellaneous Articles

Our stock of Medicines is very extensive, embracing every article in Botanical, Mineral and Pharmaceutical use by the Apothecary as well as those most commonly used by the Eclectic and Thompsonians, together with a very general assortment of Shaker Herbs and Extracts.

Our Wines and Liquors are of the purest and best, selected, purchased and kept for Medical purposes only, and warranted to be as represented

In the Grocery department we are not extensive but what we have is always of the choicest, and best brands particularly nice in their tastes, cannot fail of being suited

In the line of Paints, Oils, Glass, &c., we are and long have been, the most extensive dealers in this city. Our list embraces not only a full and complete stock of materials for House Coach, and Boat Painting, but also every thing called for in Fresco, Ornamental, Mezzotinto, and other Fancy Paint ing Glazing, Bronzing, &c.

In Window Glass our stock is necessarily larges than all the rest in the city combined as we are most extensively engaged in the manufacture of Window sash, Blinds and doors, consequently we have to keep on hand a full assortment of sizes from 6 inches square to five hundred Boxes of sizes comprising at least fifty different sizes of various qualities, thickness, etc., of French, English and American manufacture

As to Brushes, Dye Stuffs, Varnishes, etc etc we have every thing that can be desired in all the various departments in which they are used

And as for Perfumery, Fancy and Miscellaneous Articles, Combs, Brushes, Hair Oils, Pomatums, Soaps, Colognes, Extracts, etc., we have enough to meet the reasonable wants of the entire community.

An to our Prices.

We believe the people to be the most impartial, as well as competent judges in the matter and best know where their interests are benefited. Hence the reason why our customers do by far nine-tenths, and our sales exceed by thousands those of any other establishment in Erie—with this we are content
