WHY IS 179-The morning Papers of Philadelphia are served to their subscribers bere the next morning after publication—that is in just swenty-four hours. The morning pap ers of Pittsburgh, on the other hand, hardly ever reach us under thirty-six hours. And yet the mail that should bring them comes through in twelve. Why is this? Will our friend of the Union search out the cause, and have it corrected? We should receive his paper in the evening of

the day it is published, but we don't THEIR PLATFORM: -- Our readers have undoubtedly read a good deal, if not more, about the 12th section of the Know Nothing pistform, adopted at Philadelphia last summer, and which was so universally repudiated by the ree soil portion of the order in the Free States. Well, that 12th section, to reader it more palatable, has been poetleed, and the following is the result:

"If I was President of these United States. I'd arrange my business accordin'-The niggers I would sell, The Irish send to h-----l,

And the Dutch to t'other side of Jordan, Then pull off your coat and roll up your sleeves; Jurdan am a hard road to trable, I believe " If the Northern half of the order can't stand on that plat form, they ought to be sent to "the other side of Jordan," certainly!

"BOBIN AROUND."-We believe the Springfield Nonpartel is responsible for this "bobin" paragraph: "These are days character.sed by general "bibin' around." Men gather up their small accounts and go bobin' around after their debtors, who adroitly go "bobin' around the corners; pretty girls sick of waiting "a few rays for a husband, now go "bobin' around" for a bean, everybody whistles "bobin' around;" brass bands blow out "bobin' around;" high fellows sing bobin' around;" while we go "bobin' around" for items. banusa with a young lady and \$225 of his employer's cash. He was arrested at Hudson, made to diagorge and coufess his guilt, and brought back.

The trial of Baker, for the murder of Poole, was concluded in New York last week, by the jury disagreeing, and another trial has been ordered in January. To use the classic language of one of the witnesses, we guess Bacer's "mutton isn't cooked yet."

The Editor of the Gazette was scared out of ten year's political growth the other day by a "sharp witted the whole sum unpaid to be paid anually Trend telling him that "McMullen is Speaker." "Sharp witted" gentlemen should not practice upon the shattered serves of our cutemporary.

WHICH WAS THE HUNANT-One of our exchanges relates that in Covington, Kentucky, recently a man radely justled a little girl into the gutter, with indifference as to the consequences. A large dog-a very peaceful antinal-witnessing the affair insteadly sprung upon the man and seized him by the throat, holding him fast until taken away by the bystarders. Which was the human, the brute with two legs, or the doy with four?

SOMETHING SMART. EVERYBODY, we suppose, knows what SMART WEED is, and seerly every one we precame either knows or has beard of its use as a medic ne—its power and certainty in relieving Pain, reducing Swelling, allaying inflamation, curing Poison, &c. &c., when applied outwardy and also its efficacy when drunk in tea, or used in spirits—in breaking up and curing Colds, Asthma, Pathiere, and emoving obstructions in the system from whatever cause vet for all this it is but seldom used-only here and there therefore make it a point to keep it on hand. This neglect we have no doubt is in great part owing to its communess and the case with which it may be obtained. Were it imported and sold at a high price, it would doubtless be much more valued and sought after, than it is. We have no doubt but that in those common complaints, ills and accidents, to but that in those common compitairs, its and accidents, to which all families are hable it is much more useful and important than Armon for which of late years there has been quite a rage, but the fact that it loses his strength by drying and can therefore only be used for a short time in the year has excluded it from more general use, as but few know how or have the means to extract and preserve its Medicinal properties so as to have them in time of need. This excuse however no longer exists—and it can now be had in its full strength and power extracted when the plant was at its full maturity—and combined with other Vegeta-ble Extracts and Oils in such proportions that the Compound in the most certain effectual PAIN DESTROYER ever offered in the community—and one that can be used with the greatest certainty of success in simost every form of Pain inwardly or outwardly. We will not here state in how many ways and cases it may be used to advantage— those who know the weed need not be told, and those who are not acquainted with it require only a trial of it to be onvinced that as a family medicine its timely use will cut short Diseases, relieve Pain, throw of Colds. remove obstruc-tions—prevent the use of other medicines and save expense

Let those then who have families obtain a bottle of the Ex-tract, sold under the name of Carter's Morb Linement and Fain Subduer, and give it a fair trial, and our word for it, they will never after willingly be without.

Try it, then, farmers, on yourselves when you have taken Cold, when you are Chilled and benumed, when you have Aches and Pains, Stiff Necks and Stiff Joints, Chillblains, Rheumausm, Sciatica, Sweeney or Swellings. Try it on your wires and children when they are suffering from the effects of cold or obstructions, try it as a Liniment on your horses and cattle, and then say if it is not just the article on need to keep on hand. It costs but 25 cents a bottle or ave buttles for a dollar. Prepared and sold by CARTER & BRO., Erie, Nov. 24, 1855.--28 Brie. Pa.

SCROFULA.

We argently request our readers to read attentively the following statement presented to De. JOER BULL last St. John's Day, by Williams A. Gollowirrs. Req. of this city, and solemnly swors to before a Public Notary. It antibits the case of a gentleman who has been affilired by Servicia from his carriest is though. He had completely enhanceded the shell of the medical faculty of New York, and was apparently a doomed man. A trial of Dr. John Bull's Fleed Embrace of Servesparille has given him health, and he now recommends to others that valuable and potent remedy which has saved him from a prevailure grave. The original affidavit, to which is affixed the Notarial Seal of Henry C. Banka, Eq., before whom the deposition was taken, can be seen at Dr. Brull principal office, No. 3 Courling testing (Gilsey Building), Hear Breadway, New York.

STATE OF NEW YORK. WILLARD A. Golmanta, being duly sworn, pursuant to law, deposes and easy, that he resides in the City of New York; that he is engaged in the business of steel and copper-plate engraving;

That Sorofulous affections have been helr-looms in his family and hereditary; that all of his immediate relations have been more or less afflicted with it, and that has not been free from the disease at any time store his earliest recollection; that being in much bodily pain, and prevented from attendance to business, he tried many of the physicians, but found no substantial relief.

That about three months since, Dr. John Bull's Sorosparille was recommended to him as possessing some qualities which would relieve his difficulties and purify his blood; separtile was recommended to him se possessing some qualities which would relieve his difficulties and purify his blood:

That after using this medicine for a short time, a feeling of improvement was manifest, and from that moment to this, a gradual but standy advance has been realized, and he is now, not only entirely free from all pain, but is enabled to give his business all attention, and is enjoying better health than he ever believed was in store for him. That he has also cased the Sarvapparilla of Dr. Bull in his family with similar results, and believes it to be the best purther of the blood that can be used, and as a gential tonic medicine without on equal;

That he can and does, with the most positive confidence, assummend the use of this medicine to all whe may be similarly difficted.
