Mething has called loader for the carnest enquiry nedical men, than the alarming prevalence and fatality o onsumptive complaints, nor has any one class of disease consumptive complaints, nor has any one class of diseases had more of their investigations and one. But as yet no adequate remedy has been provided, on which the public could depend for protection from attacks upon the respiratory organs, until the introduction of the CHERRY PROTORAL. This article is the product of a long, laborious, and I believe successful endeavor, to furnish the community with such a reasedy. Of this lest statement the American peo-ple are now themselves prepared to judge, and I appeal with confidence to their decision. If there is any depenses, when we see dangerous affections of the throat and lungs yield to it, if we can depend on the assurance of in-telligent Physicians, who make it their business to know, in short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does relieve and does cure the class of diseases it is designed for, beyond any and all others that are known to mankind. If this be true, it cannot be too freely published, nor be too widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are priceless to them. All should know it, for health can out everywhere, not only in this country, but in all countries. How faithfully we have acted in this conviction, is shown in the fact that already this article has made the circles of the globe. The sun never sets on its limits. No continent is without it, and but few people. Although not in so general use in other nations as in this, it is employed by the more intelligent in almost all civilized countries. It is extensively employed in both America,—in Europe, Asia, Africa, Australia and the far off islands of they grasp at a valuable remedy with even more avidity Unlike most preparations of its kind, it is an expensive composition of costly material. Still it is afforded to the public at a reasonable low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofore, or as we are capable of making. No toil or cos' is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can ty mutual consent. At persons having accounts with the brung are requested to call and settle without delay.

GOOD NEWS! GOOD NEWS!!

Those of our readers who have not tried that valuable preparation known as DR JOHN BULL'S PLUID EXTRACT OF SARSAPABILLA, for the cure of the very many diseases with which mankind are afflicted, are requested to read the annexed testimorfial forwarded to DR BULL a few days since, by Jacon G. France, Eng., a gentleman long connected with French's Hotel of this city, and extensively known as a man of unblemiabed integrity, who would not endorse any medical preparation whatever, unless thoroughly convinced of its efficacy.

French's Hotel, Nova York, December 6, 1864. JOHN BULL, M. D.—Dear Sir: The immense practica nefit I have derived from the use of your Field Ro benefit I have derived from the use of your Field Bi-truit of Strengarilla indance me to recommend it ur-gently to all who, like myself, have been subject to that districting maindy, Complaint of the Eldneys. I have fount your preparation all I could desire, and regard it as one of the best remedies within my own personal knowledge. Sincerely grateful for the health I have se-cured through your immediate agency, I beg leave to subscribe myself.

Being personally sequented with Mr. Presch, I take pleasure in superadding my corroboration in testi-mony of the cure effected in me size through the lestra-mentality of your tarshable compound. Having persen-ally availed myself of the curative properties of year flued Barracal of Sersesportific, particularly in the puri-fication of the blood and the consequent anticipation of those universal disorders attendant upon the changes of the season, I would cordially recommend it as a family medicine which should be maintained in every boun-shold. A remarkable instance of the influence of your miraculous resuscitation of a body weakened to the last degree by the axonesse of animal indulgence, occurred in the case of an eminent manufacturer in this vicinity, whose modesty, and not want of inclination, precludes him from a publication of the detailed circumstances of his afflicting disease, which threatened to determine into a settled case of premonitory leprosy. I am assured by him, that by the use of your Pluid Extract, he has been completely restored to his former and sorrect enjoyment of numerical inselfs.
