For the rapid Cure of COUCES, COLDS, MOLESENERS, BRONCHITIS, WESOPING-COUCH. CROUP. ASTREA. AND CONSUMPTION.

This remedy is offered to the community with the confidence we feel in an article which soldem falls to realize the happiert effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its curve, that almost every section of the country shounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use,—When once tried its superiority over every other medicine of its kind, is too apparent to escape observation and where, its vigities are known, the public me longer heatints what antifficult to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our tions of the pulmonary organs, which are incident to our

climate.

Nothing has called londer for the earnest enquiry modest must then the alarming prevalence and famility of medical must, then the alarming prevalence and famility of consumptive complaints, nor has any one class of discusse had more of their investigations and core. But as jet no adequate remedy has been provided, on which the public adequate remedy has been provided, on which the public could depend for protestion from attacks upon the respiratory organs, until the introduction of the Christop Protesta. This article is the product of a long, laborious, and I believe successful undenver, to firmish the seammanity with such a reasedy. Of this last materies the American popular new new thomselves propored to judge, and I appeal with confidence to their decirios. If there is any dependent to the production of the product of the ence to be placed in what men of every class and station dence to be placed in what men of every these and attation certify it has done for them, if we can truet our own secses, when we see dangarous affections of the threat and lungs yield to it, if we can depend on the assurance of intelligent Physicians, who make it their business to know, in short, if there is any relicate upon anything, then is it irrefutably proven that this medicine does relieve and does cure the class of diseases it is designed for, beyond any and all others that are known to mankind. If this be true, it cannot be too freely published, nor be teo widely known. The afflicated should know it. A remedy that curse, is priceless to them. Parents should know it, their children are priceless to them. All should know it, for bealth case are priceies to them. All abouts know it, for section was be priced to no one. Not only should it be circulated bere, but everywhere, not only in this country, but in all countries. How faithfully we have acted in this conviction, is shown in the fact that already this article has made the circles of the globe. The sum never sets on its limits. No circles of the gisce. The sun never sets on its limit. For continent is without it, and but few people. Although not in so general use in other nations as in this, it is em-ployed by the more intelligent is almost all civilized coun-tries. It is extensively employed in both America,—in Europe, Asia, Africa, Australia and the far off islands of the sea. Life is as dear to its possessors there as here, and they grasp at a valuable remedy with even more avidity. Unlike most recognitions of the kind it is an agreenive Unlike most preparations of its kind, it is an expensive composition of costly material. Still it is afforded to the public at a reasonable lew price, and what is of vastly more importance to them, its quality is never affected to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofure, or as we are espable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the granine CHERRY PECTORAL, can rely on having as good an article as has ever been had by hose who testify to its cures.

By parsuing this course, I have the hope of deing some good in the world, as well as the satisfaction of believing

that much has been done already.

ASTONISHING AND RAPID CURE CROFUL

We urportly request our readers to read situatively the following statement presented to Dr. John's Bull. last 8t John's Day, by Willand A. Gollourrin, Res, of this sity, and selectiny sworn to before a Public Rotary. It exhibits the case of a gustleman who has been afficied by Screebis from Me carefact (aginney. He had com-pletely endrusted the skill of the medical faculty of How York, and was presently a decomed man. A trial of Dr. plotsly enhausted the skill of the insellini faculty of Herw York, and was experiently a decread man. A trial of Dr-John Bull's Fisch Butract of Sarsesparilla has given bim health, and is now recommends to others that value able and postant remedy which has saved Asia from a pre-mature grave. STATE OF NEW TORK, WILLARD A. GOLEREITE, being duly sween, pursuant to inw, deposes and mys, that he resides in the City of New York; that he is engaged in the business of steal and supper-plate engraving;

That Sovephison's Affections have been helr-innues in the family and hereditary; that all of his immediate relations have been more or law afflicted with it, and that he has not been free from the desense at any time since his certical recollection; that heing in much bodily pain, and prevented from attendances' the business, he tried menty of the physicians, but found no substantial relief.

That about three months since, Dr. John Bull's Serseptivilla was recommended to him as possessing some qualities which would relieve his difficulties and partly his blood;

That after using this medicine for a short time, a feeling of improvement was manifest, and from that moment to this, a gradual but standy advances has been realized, and he is now, not only entirely free from all pain, but in enabled to give his business all attention, and is enjoying better beath than he ever believed was in store for him.

That he has also need the Sgreegon-cilia of Dr. Bull in his family with similar results, and believes it to be the best perifier of the blood that can be used, and as a genuin toric medicine sufficient on aguel;
