## Topics of the Week.

What of the Sunbury and Eric road? This question has been in the mouth of every one ever since the result of the elections of Directors became known. A couple of weeks since, when the additional million subscribed by Philadelphia, had been perfected by ('ouncils, every thing bid fair for the speedy commencement of the work at this end, and a vigorous prosecution to its final completion. But the man who indulges in any such hope now must indeed have faith firm as adamant, and strong as hooks of steel. The very fact, that there has been an entire change of the Board of Directors-that it has again fallen into the hands of those who have fed and fattened upon its past vitality-is enough to demonstrate the absense of all hope for the future. Railroad enterprises that flourish do not change their Board of Directors and President yearly. On the contrary, the best men are sehas not been the case with the Sunbury road. golden egg, supposed to be somewhere in its bowthink its almost inanimate body was given to Gov. dy is at hand, they are the ones to apply it BIGLER for the purpose of escaping blame should

# That Tax Bill.

A good deal has been said in one of the city papers in regard to the bill introduced into the Legislature by Mr. Whallon to authorize increased taxation in this city. No one would object to this, and least of all Mr. W. if the facts in regard to the character of the bill would be given at the same time; but as these facts are withheld, and an effort apparrently made to hold Mr W responsible for the whole matter, we have deemed it no more than right to state the character of the bill, and also to say that the bill was got up by Mr. W.'s constituents, and sent to him for pas. d to have it reported-especially when, in
