## The Erie Extension.

The citizens of Mercer, Lawrence, Crawford and Eric counties, are in a high state of excitemont concerning the high rates of toll charged on the Erie Extension Canal A large meeting of the citizens of those counties was held in Sharon. in More it county, on the 1st instant, with a view to produce legislative aution in the proteines, and check the exorbitant exactions of the Company A series of resolutions were reported and adopt ed, in which it is charged that the Eric Company, having obtained from the State, in the time of her financial subarrasament, the Erie Extension of the Penn-Tivania Canal, after she had expended almost four millions of dollars upon at proceeded to unpose upon the Legisl cture, and procure laws removing restrictions placed on their conduct, and greate, cularging their power, to the prejudice of the people along the line, that a proposed moreuse of toll on coal and an increase imposed by the company last year on iron, coal, and other local trade, were a violation of faith; and deaply injurious to that section of the State, that an act passed in 1853, allowing discriminanon between through and local freight and passongers, placed the citizens along the line at the mercy of hostile parti s and should be repealed; and further, that the company's charter had been as sated by their allowing one of their own numar sargely interested in the transportation of oil canal, draw backs amounting almost to a usual rates of tolls, and imposing upon other sames engaged in the same business an amount afficient to make up the deficiency on revenues has created. They therefore call on the Legistature for immediate action, if not the resumption of the entire canal A large number of persons were appointed to circulate petitions in their res. pective counties, asking the Legislature to repeal all legislation procured by said company since

This important document is not issued too soon, nor, perhaps, too late. We trust it will convince the Kansas insurgents and their abettors, and also the Missouri insurgents and their 241 abettors, that a solemn act of Congress is not to Le violated with impunity The President will to sustained in the position he has taden by the an he conservative p wer of the country, North and South. The true friends of the Nebraska or, or, if you please, of the principle of popular | exercigaty, will sast on him: for that principle this rantly visited by the out there ne of foragn communities in the management of Kansas afters, and especially so by attempts within the ferritory to resist by fone of arms the regular ! operation of its government and laws Both of these dangerous movements must be put down The Topeka Convention, and all the proceedings under or resulting from it, are clearly revolutionaty, and cannot be sustained. We have no idea that they will be sauctioned even by the present anti-Nebraska House of Representatives at Wash-

Scarcely any "heated" election takes place any where which is not averred by the defested party to be the result of fraud. The charge may to some extent be well founded. But, whether it is or not, 134 if the electron are been conducted according to the forms of law, and the regular certificates of dection have been granted by the proper authorthe and sustained by the legislative body, the only remedy which is come to the outs is to try again-when the regular time comes. Had they waited for an election under the laws, no doubt the national executive would have used all proper means to secure to them a fail and fair expression of sentiment without interference from any quarter. This must be done still. The revolutionary in ivenuent might case, but at the next election the people of Kansas must be pull stell in the free and unrestrained exercise of air their rights as secured to them, by the Nebra ka law

Dear Sir: Being personally acquainted with Mr. Franch, i take pleasure in supersiding my corroboration in testimony of the cure effected in his case through the instrumentality of your invaluable compound. Having personally availed myself of the curative preparties of your Fluid Extract of Sarsepartilla, particularly in the purification of the blood and the consequent sancipation of these universal disorders standant upon the changes of these seaton. I would cordially recommend it as a family institution of the blood and the consequent is as a family institution which should be maintained in every house remained. A remarkable instance of the influence of your remedy upon the restoration of the frame, and the all-but infraculous resuscutation of a body weakened to the last integree by the excesses of animal indulgence, occurred in the case of an emboent manufacturer is this vicinity, whose molesty, and, not want of inclination, precludes him from a publication of the detailed circumstances of his afflicting disease, which threatened to determine into a settled case of premonitory leprery. I am assured by him, that by the use of your Fluid Extract, he has been completely restored to his former and correct enjoyment of unimpaired health.

CROUP, ASTHMA, AND CONSUMPTION. This remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from slarming and even desperate diseases of the lungs, by its use .-When once tried its superiority over every other medicine of its kind, is too apparent to escape observation and where its virtues are known, the public no longer hesitate what autidote to employ for the distressing and langerous affections of the pulmonary organs, which are incident to our Nothing has called louder for the earnest enquiry of medical men, than the alarming prevalence and fatality of consumptive complaints, nor has any one class of diseases had more of their investigations and care. here specessful endeavor, to furnish the community with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision. If there is any depen-dence to be placed in what men of every class and station certify it has done for them, if we can trust our own semses, when we see dangerous affections of the throat and lungs yield to it, if we can depend on the assurance of in-telligent Physicians, who make it their business to know, in abort, if there is any reliance upon anything, then is it irrefutably proven that this medicine does relieve and loss cure the class of diseases it is designed for, beyond any and all others that are known to mankind. It this he true, at cannot be too freely published, nor be too wistely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, the rehidren are priceless to them. All should know it, for health can be priced to no one. Not only should it be circulated hers, but everywhere, not only in this country, but in all counrice. How faithfully we have noted in this conviction, shown in the fact that already this article has made the circles of the globe. The sun never sets on its limits. No continent is without it, and but lew people. Although not in se general use in other nations as in this, it a enployed by the more intelligent in almost all civilized countries. It is extensively employed in both America. in Europe, Asia, Africa, Australia and the far off islands of the sea. Life is as dear to its possessors there as here, and they grasp at a valuable remedy with even mere avoidity. Unlike most preparations of its kind, it is an expensive composition of costly material. Still it is afforded to the public at a reasonable low price, and what is it vasily more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofore, or as we are capable of making. No toil or cost is spared, in maintailing it in the best perfection which it is possible to produce. Hence the patient who procures the genuine Chierry Pectorial, can rely on having as good an article as has ever been hall by those who testify to its curer.

By pursuing this course, I have the hope of doing some

good in the world, as well as the ratisfaction of believing that much has been done already.

First Premium Daguerreotypes. C. SCIPTIRE continues to execute Duguerrostype Likenesses in the superior and masterly style for which he is so justly celebrated. Much regretting that he mannet call the attention of the public to his profession and and pince of business without incurring the severe displeasure of the "Park Row" Operator, and subjecting himself to a tirals of abuse from the same source. Hoping my neigh bor will soon see the propriety of endeavering to build up a reputation for himself, instead of wasting his time and a reputation for himself, instead of wasting his time and talents (?) in vain endeavors to destroy mine, I will once more sail your attention to the Fact that the First Prehium was awarded to me by the Erio County Agricultural Society, for the best Dagmarreetype Specimens exhibited at their Fair in Octobes last, E. H. Abell competing. With this theurance of my merit, and my large and constantly increasing business to encourage me, I doubt not but I shall yet be able to "reach to the most sublime givere" of my reasonable attented, especially if pression that may be honograble attented, especially if preferring that may be honorably attained, especially if those; who "mearch the deripture" and a hat full of poor (very poor) pictures which were executed by the Park Row Operator and cast off by those who had been humbugged with them, and replaced by Scripture's superior productions. Don't be humbugged but step in and examine for yourself.
