THE RESULT OF THE TRRATY. - The first cargo from Japan, consisting of over \$20,000 shape of fancy-dressing cases, music stands, glove boxes, toilet boxes, cups, rich cabinets, drawing tables, trays, card tables, and many curious and elegantly carved articles, have reached New York in the schooner "General Pierce."

SUBMARINE OCEAN TELEGRAPH.—The bill for the formation of a Transatlantic Telegraph Company, which was some time ago introduced into the Canadian Parliament, has passed its second reading in the lower House, and the committee to whom it was referred have recommended its final passage. The telegraphic line for which provision is thus made, will begin at Quebec, and following the course of the St. Lawreme, reach to the eastern extremity of Labrador. A submarine cable will then convey the thence up the eastern coast to the point nearest to Iceland, and thence across the straits to that island, which the line will traverse from west to east. Finally another submarine cable will armathe stretch away to the Farce Islands, and thence to the northernmost extremity of Scotland. There will be but three or four stations in crossing the Atlantic, and the cables, whose junction will form the ocean line, will vary from a hundred to five hundred miles in length. Quebec and London will form the two termini of the line, which it is stated can be completed in less than eighteen

On Friday night of last week the water was let out of the Canal Reservoir at Hartstown by some malicious persons, and navigation on the Shenango Division was suspended for a few days. The bank was cut in two or there places, but we believe the water only broke thro' in one. The embankment has been repaired, but it will be some time before water will be as abundant on that branch as it was previous to the damage. We trust the prepetrators of this flendish act may be discovered and severely punished. The damage is comparatively trifling to the Canal Company, but the loss attending the interruption of pavigation, falls very heavily upon the boats

Col. COLT, superintendent of the Canal, speaks in very high terms of the promptness and energy with which Judge Bligh, aided by an army of the Browns, Maguires and Proctors, of the vicinity, repaired the breach and put the "old in good order for navigation. He considered sear delegation had not been called. In being inflinated ers the inhabitants of that streak of timber. that this was a member of the Senten Doucerney, there letter A.
