## THE DEMOCRATIC Mass Convention! At ERIE, AUGUST 27, 1856.

We have the pleasure of announcing that the following distinguished speakers will address the friends of Buchanan and Breckenringe, in this city, on the 27th inst, viz:

· Hon. WILLIAM BIGLER. Col. SAM. W. BLACK. Hon. JOSIAH RANDALL, Col. J. W. FORNEY, DANIEL DAUGHERTY, Esq.

and if other engagements do not prevent, the distinguished Statesman of Illinois.

Topics of the Week.

Hon. S. A. DOUGLAS.

Col John Rows, of Franklin county, received the nomination for Surveyor General on the 8th ballot, at the State Convention last week. The vote stood Rowe 60. Whalion 49, and Alexander 4. Mr. Rows's is a most unexceptionable nomination, still we regret it, because we confidently anticipated the choice would fall upon the candidate presented by the Democracy of Erre-Munnay WHALLOS, Esq., It will now be seen that the entire state ticket is located East of the mountains; still we apprehend that, notwithstanding the apparent determination to monopolise all the offices as well as the glory of the campaign, the masses will do their duty, and that the west will be heard from when the votes are counted. Every thing for the cause, nothing for men, is our motto-we therefore place the name of Jonn Rown at the head of our columns, and will give bim and energetic and earnest sup-

The Black Republicans profess to be the exclusive friends of Kansas—but, judging them by their acts, every premacy of the law" in that territory; and these instruc candid man must admit that their professions in this respect are all false! To illustrate. The Senate, which is slavery men as well as armed bands of Free State men largely Democratic, has twice passed a bill for the nacifi catian of Kansas. That bill was pronounced by John P. uffians," or from any other cause, might return and vote at the election of delegates to the convention to form a State Constitution - thus giving the "freedom shriekers" overy opportunity desired to go there and shape the insta they might deem best. And to enable them to do this without let or hindrance, it provided for their protection by the whole army of the United States! One would think that a bill, containing all these provisions, endorsed tou as being unexceptionable" by the leader of Fremontism in the senate, would have been heartily concurred in by those who profess so much sympathy for "bleeding Kansas" and such an ungovernable determination to make "slave ry sectional and freedom national." But unfortunately freedom in Kansas" is but the presence, while Fremont in the Presidential chair is the object-hence we find every freedom shrieker" in the Senate, every "freedom shriek er" in the House, and every "freedom shrisker" outside denouncing the Senate Kanses Pacification bill. And why? It would cure the wounds of "bleeding Kansas"-it would put an end to agitation, and thereby destroy the last lingering hope of seeing Fremont in the Presidential chair and hence it must be defeated ' And what think you reader, did these professed friends of Kansas propose to pass in its stead?-what remedy have they offered for the evils in that territory about which they complain so much? What is the nature of the organic laws they have offered in place of the Senate bill? These questions are pertinent, and we propose to answer them; and we desire every "freedom shrieker" to pay attention while we do so They offer the Topeka constitution, and propose to Congrees to recognize it as the organic law of the State of Kansas. It is quite unnecessary to show our readers that that Constitution was formed and approved by only about 80¢ of the people of Kansas-that only about that number participated in the election of the delegates—and hence ance of the people of the territory do not approve of its provisions, and do not desire its recognition by Congress. We say that although such is the fact, it is quite unnecessary to show it, because the constitution itself preven the Senate Committee, to which it was referred after it had passed the House, and that committee have made an elaborate report thereon, in which its rejection is recommended

"First it incorporates into Kaness a portion of the Cherokes country which the United States has by treaty pledged the faith of the nation should never be incorporaed into any State or territory. Second, it also incorporates into Kansas about twenty

Second, it also incorporates into Kansas about twenty thousand square miles of Maxico; establishes slavery therein until 1858, and prehibits it thereafter, in violation of the compact purchasing the country from Texas, and of the compromise measures of 1858, which guaranteed that said territory should come into the Union with or without slavery as the people should determine.

Third, it legalizes and establishes slavery in Kansas, and over a portion of New Maxico until 1858, and provides that children heretofore bern shall be slaver for life and their posterity after them, provided they are removed integrated that State or Territory prior to 1858.

Fourth, it recognises the validity of the existing laws in Kassas, and provides for the faithful execution of them

Piåth, it provides no guarantees against illegal voting, frands in conducting the elections, or violence at the mass to stand neutral in a crisis like this, and therefore we pells, but legalises all such ourages, by declaring that hope to find him on the side of Buchman before the election."

Then it will be seen that the politicians who have ted a bill which provides in every possible way for the stantage of the territory as a Free State, and in its stead have actually passed through the House, where they have a large majority, an act recognizing the Topeka Constitution, which Constitution not only "legalises and setablishes slavery" there until 1858, but also provides that free negroes shall not live in the territory—the senalty for disobeying which is "that children bereafter born shall be slaves for life, and their posterity after them" if "they are removed into a slave State prior to 1858." And yet the men who advocate the recognition of such a Constitution, call the statesmen who oppose them and advocate the Senate bill, a "set of doughfaces," and the party that sustains thom, "the slaveceracy." Can the people be long deceived by such hypocrites and pretend-

In view of this fact, therefore, it may be well enough to nail this falsehood of the would-be Lieut. Severnor to the counter as base eein; and although we may not be able to reach the ear of all whe have listened to it. We can put those who read our namer in nessession o facts with which to meet the charge when retailed by

The charge is, as we understand, that the army of the I'nited States has been and is used in the territory of Kansas to keep out and prevent the settlement of that territory by Free State men. Now, there is none so ignorant, or even so prejudiced, but will acknowledge that an officer in command of a division of the army receives from the proper Department full and ample instructions before he proceeds to act. And such is the case in Kansas. Col. Summer is in command there—he is a Northern man, and admitting that he might use the force under his command o keep out Free State settlers, the fact that he is a Northern man would seem to be sufficient evidence that he would not, unless expressly ordered to do so by his superior, the Secretary of War. Now what were the instructions of the Secretary. We annex he following, called out by resolutions of inquiry by Congress. It puts a quietus upon every vestige of our would-be Lieut. Governor's falsehoods. It extinguishes him, in fact! Read it, then, and see how completely Roberts is refuted by the official record. Read it, and see how malignant a lie Roberts retails. Read it, and learn that no dependence can be placed upon Frement oraters, or Fremont papers'-Read it, and therein find another proof that the Fremen leaders have determined to make this campaign distinguished above all preceding ones for its falsehoods and mis

Sir —Your letter of the 12th inst., this day submitted to me by the Adjutant-General, has been read, with its to me by the adjumnat-reserval, and need your lead, with its enclosures. You have justly construed your instructions, and your course is approved. The real manifested by you to preserve order and prevent civil strife between our fellow citizens in Kansas, received full commendation, but you have properly refused to interfere with the military power of the United States, except under the circumstances and conditions contemplated in your instructions, authorized by the laws of the United States, and warranted

We notice in the proceedings of the Senate, on Saturday last, that Sentor Jours, of Tennessee, a gentleman whose lognonce has thrilled the hearts of the members of the whig papers in the North and South; but we expect that now these same papers that thus indicated their confidence in his ability and patriotism, will be the first to denouse him because he cannot stuitify himself by joining in the effort to place John C. Frement in the chair once oceupsed by a Washington and a Jackson. But Mr. Jones is not alone in this unwillingness to see such a politica sacrilege. Other eminent men of the old Whig party bear him company, and among them we are pleased to see that eminent Statesman, Jonn. M. CLAYTON, of Delaware; a fact that would seem to settle the question of how that State will vote at the Presidential election. Upon this point the Washington Union says:

"Senator Bayard, of Delaware, addressed a large and en thuslastic meeting at Dover, in his State, on the 24th ult In the course of his eleguent speech he appended the would under no circumstances support either Fremest of Fillmore for the Precidency; and we understand that this announcement was made with the entire approval of

In regard to lows, our readers should bear in mind both factions of the opposition to the Democracy in that State-both the advocates of Fillmore and Fremont were united upon the State and Congressional ticket. This electorial vote of Iowa will be cost for Buchanan.

The Republican presses and speakers are forever chara ing the Democratic party with holding the doctrine that the Constitution carries slavery into the Terrupries. New it is true, that some men in the South do hold that this is the legal effect of the terms and equities of the Constitution but we deny most emphatically and absolutely that the Democracy as a party ever held or expressed any such doctrine. We have denied this before and challenged the proof, and we repeat the challenge. It is well known, that Gen. Cass, as bright a light of Democracy as ever shone, is inseparably indentified with the opposite doctrine local Territorial soveignty. And Laws Case is an honored exponent and a true representative of Democracy and it ideas. If the Republians are afraid to assail true Demo rratic positions, they should exercise a little of their boas ed candor and goodness, and abstain from coming mon strous doctrines for us, out of their own fortile brains

Say what they will, the Black Republicans who, for ime, thought there would be no votes east in Pennsylvaais for Fillmore in the counties West of the Allegheny nountains, begin to see signs that portend a storm. We setice that in Allegheny County a new paper, called the Vational Americanchas been started. It is published seminajority claimed for Fremont in that county before Novemer! We learn, too, that the Republican, of Marcor, a paper that a few weeks since run up the Frement flag. this week bauled it down, and unfuried the Fillmore banner. The reason of this may be found in the fact that the Editor was a delegate to the American Convention at Harrisburg last ween, and there learned that the Fremont dodge did at take in the Eastern part of the State-that in short, Fillmore would receive more votes in Pennsylva nia than Prement, and hence it was no use to sacrifice feeling for expedency and success, and therefore he might just as well return to his first love as not-hence he his

The Garette does not like this, and somes to his aid with a denial; and to make its denial pass current, drags in the name of Mr. Rall as its authority. Now we do not know, neither do name or not; what we know, we know just as well as Mr. of Washington, and the reason is that the sentiment is B. or any body else can tell us-and we know J. Y.
