The Philadelphia Sun, a Fremont paper of Tuesday last has the following article in reference to Kansas. The stock in trade of the 5 00 (freedom shriekers" is exhausted. Governor

Geary has ettled matters there, and peace is re-

stored to the people of that Territory: " RESTORATION OF QUIET IN KANSAS .- The 2 00 news received via St. Louis from Kansas to the 19th of September, gives cheering encourage ment that the measures taken by Gov. Geary will speedily lead to the pacification of Kansas It is known to our readers that we have persist ently condemned the shameful interference of the Missourians in the affairs of Kansas, and the great evils which have resulted from this tuter ference have shown that our fears were not i. grounded. The prospects of peace and a return Dip. & 2 00 to the foundation principles of representative government, that the will of the people fairly expressed at the polls by legal votes shall be obeyed and respected, cannot fail to be gratifying to all good citizens. We are entirely independent of and above the influences of those partium tactics which try to make the worse appear the better cause, or to conceal the truth because ig porace of it may facilitate the chances of thi 1 00 or that political aspirant Therefore, we stand ready now, as we have always done, to do us so tice to any party that may bring about such a condition as this. We have ever condemned the repeal of the Missouri Compromise as

wanton and uncalled for re-opening of agitation but since the act was committed, and its rest ration appears impossible and is not even chinby many who staunchly resisted its infrawe have anxiously desired that the prin posthe Kansas Nebraska Bill sh uld have a fa trial They have resulted well in Netrali which Territory was organized by the a a settlers under that bill, and it cannot be ined that, if left to operate in Kansas, r / w interruption from any quarter, they also equally successful. The action of Gov Jon W. Geary, a Pennsylvanian, recently appears to the responsible position by President Parlooks like the dawning of a new era in Kiuse and thus far has shown that a man of nerve at of sound principles, can do much to put it the unfortunate difficulties and prevent the unlawful interferences that have so long disturb ed the country and retarded the progress accurately of the Territory Hismangura, pr
