satisfied that the Presidents's proposition is not for an absolute cession of sovereignty and terri torial dominion upon the Isthmus, but for a trea. ty concession to us of perfect municipal power there, with such restrictions upon the power of the Federal Government of New Granada with eference to the Transit route as shall give to ous a fact, with respect thereto, free exercise of all the powers of sovercignty for the protection and development of American interests, without veilding us the actual sovereignty by name. In short, ve are to have the substance of the thing with out the name.

An arrangement of this sort would save the pride of New Granada, which revolts at the idea of parting with territory valueless to herself. while it would also obviate much of the objection

in the United States to the sequisition of territorial sovereignty detached from the great body of our possessions. There is reason to believe that the proposed arrangement will be consummated. In return for the concessions to the United States we are to pay New Granada a sum of money to be agreed upon, from which the just claims of American citizens to indenmity for losses of the Panama riots of April last will be paid. The contemplated Treaty will doubtless be here for consideration by the President and

Senate within a few weeks at latest.

WASHINGTON Nov. 16, 1856.

A distinguished gentleman returned from Wheatland last night, after a visit of two days. Mr. Buchanan authorizes it to be said that he has extended no invitation for a seat in the Cabinst to any person, nor expressed any indication by which a proper inference might be drawn on that subject. His purpose is to keep himself entirely uncommitted until he has full and fair opportunity of consultation and reflection, and he motive of reserve will no longer exist.

One point is settled in his mind and avowed to his personal friends, that is, to imitate the example of Gen. Jackson, by making the Cabinet a unit, and unmaking it, if the purpose be not attained at the first experiment. "He is sen ible that Gen. Pierce's Administration split on the rock of attempting to make harmony with incongruous elements and hostile factions. He pelieves himself firm in this and other resolves, forgetting his former facile shortcomings. He also says that he has given no assurance, promise, or pledge in any quarter respecting any important places here or elsewhere
