-E'sewhere in this weeks paper the redar will find all the particulars which have yet come to night of a contem plated Slave revit at the South. In laving these details before our readers, we cannot express our own views better than by echoing the language used by the Cleveland Plan-dealer in commenting upon the same facts. No one capable of tracing cause and effect, says that paper, can doubt for one moment that the present alarming slave insurrection in the South are the legitimate fruits of the late campaign, and are chargeable to sectional agitation against the South by the Northern press and point, as a race of ruffians, unfit to enjoy the equal blessings of Government, have reached the care of of those, not intended by some. but fiendishly desired by others, and not only whites but condingism Slaves in all the free border States well unparty had been organized on colored principles alone, led They became generally impressed with the idea that if will account for their present conspiracies all over the it will sink into oblivion, only to be remembered handas States and the r preparations for a seneral unriging which of late have been discovered to an alarming extent and which have been not down by the halter and the whin. But the dismal results of a general Slave insurrection in the South would pervade alike the whole country. Thousands, yes, millions of degraded human beings of all ages and sexes, who never have had to provide the means of a livelihood for themselves, would be thrown suddenly upon the Free States for the pecessaries of life, and they would be instified, in the absence of employment, which they could not obtain, in plandering a subsistence from those who, by their fanatical intermedding, have brought this great evil upon them.
