-A few days since a well dressed gentlemanly looking man, leading a beautiful boy some five years of age, entered a jeweller's shop in Broadway, New York, and asked the price of a handsome gold bracelet; it was \$125. Supreme Judge.

With the Democratic partitional people of this State the passtion, who shall be the amdidate for Judge of the Sureme Court, to til the vactice courselly the tesignation of Mr. Justice Black is one of importance. In making practical answer to the question many matters are to be aken into consideration. Fitness for the office is of course the most important, but a man may be qualified, yet not vailable. The election is very properly to be by the people, and the candidate must be some man known to he people and who, in addition to his peculiar qualifies. tions for the high and responsible trust, must have about him the elements of popular strongth. He must be a gentioman known, and favorable known, throughout the State. In the consideration of these matters, location must not be left out of view. A party condidates for popular election should be so distributed ever the State as to give general satisfaction, and honce strength. To the question location no one can dear that this candidate of right should be taken from the northwest. The present State Moors, with the exception of Mr. Justice Lourie, as wel as all of the Democratic candidates, are from the eastern part of the State. The northwest is entitled to remem brance, and if she presents to her brothren from the other -A bruish murder was committed a short time since, at | parts of the State a candidate otherwise equal to those that county has not killed him off,) that the opposition candi-

JAMES THOMPSON. In regard to him all the proposed considerations and queries can be favorably answered .-As to qualifications, he is equal to any man in the State. (ritory, or ferbid its being held as such wherever its ewast As a Jurist, none stand higher, and his reputation is not a many choice to held it. The Tribune, and kindred sheets, have a most intolers but do claim that some favor should be extended to a por- ble itching upon all occasions to denounce those who diffor with Black Republican ideas of "Beform," as "liars" and "villians," but we sabmit whether the "chief of all liars" ever compressed so much untruth in se small a space as the Tribune does into the above. But seriously, this stuff of the Tribune reaches thousands who take its savings as law and gospeli and hence the injury such an unprincipled liar as Greeley inflicts upon the country. Few of his dupes will ever be told, what is a fact (to quote again from the Express) that for 50 years, all our Courts, Federal and State-certainly in the Northern commercial States have recognized slaves to be property. There is not a manufacturer in Connect or Massachusetts, who sells his products South, that does had refused to run upon the same ticket with him for the | not know, slaves are often levied on as property there, and sold as property to collect Yankee debts, if sued in the provided that the prayer of his petition be granted by the ed that he would submit to any such nonsense! Nor have the Courts decided any such receiving the petition until the lady had explained her the Editor of the Gusetts, who could no lenger contain his principle as the Tribune says. Since the appointment of Judge Black to place in Mr. Buchama's Cabinet, the question is other asked, "Who shall be his successor?"— Many eminent names have been suggested; but it seems to the writer of this article, that in point of location, legal knowledge, and peculiar fitness otherwise, for the position, the Hon. James Thompson, of Erie, has preseminent claims.-We are not of those who believe that a "Western man" should be taken, simply because he is a "Western man." or an "Eastern man" nominated because of his residence in the East : but is cannot be denied, that the East appropriated all the offices, both "fat and lean," in the Conventions of '56 and '57. And while this is so, aght with head erest will this merning count up the cost, it is equally true that the Democracy of the Northwest have had a "hard row to hoe," and that, too, without hope or reward. We have an opportunity now to reverse this, and confer a deserved honor upon one of the most deserving of the Democracy of that infected region

Of Judge Thompson's political character, it is uite unnecessary to speak. Where he is best known, it is fully appreciated and acknowledged. He was Speaker of the House when our present Executive was first elected to the Senate of the Inited States, and had the honor, we believe, of giving the easting vote in favor of his election Afterwards, he represented the Erio district in longress for six years, and was one of the most earnest and eloquent supporters of the Adminiss tration of Mr. Polk llo then retired from pole tirement, and in 1854, the people of Erro County scales in team on to be not required and their will be at the f elected him to the Logi-fature in the face of a positive refusal to allow the use of his name, I being the first Democrat clocked from that county for twenty five years. This fact alone is conclusive as to his popularity among the people where he is best known

As to Julio Thompson's logal qualifications, by only suc that the for, not positive properties here can be no question. While he occupied a so hit best of the neck of the brest of commercial so his home has been been as which nosition he was there can be no question. While he occupied a seat upon the bench, to which position he was appointed by Gov. Porter, the Supreme Court, if we are not mistaken, was never called upon to for scores of deferent diseases we are not mistaken, was never extend upon to for correspondeness.
