News of the Week.

- The New York papers bring us the details of an ex tensive conspiracy and attempted escape of the convicts at Sing Sing prison. At breakfast time on Sunday morning about sixty of the prisoners, having knocked down the guard, formed in two parties, one of which made for the river and the other for the village. They were pursued, and after a short chase every one of them was captured. No one was seriously hurt in the melee The conspiracy however, was not confined to the above mentioned gangs The remaining prisoners, at the conclusion of their breakfast, and upon a preconcerted signal being given, rushed ! upon the keeper and were beating him, when the agent of the prison came to the rescue and discharged his pistols ' can do among the convicts. This had the effect of quelling the revolt Quiet was restored and punishment inflicted on the offenders. The ringleaders of the rebellion were two brothers named Dunn The affair seems to have been reattered, instead of keeping in compact bodies, doubtless many of them would have effected their escape. It is evident that there is a laxity of discipline in these penal institutions. Within a few weeks two Wardens of the Massachusetts State prison have been murdered by convicts not long since a revolt was attempted at Auburn, and this is the second consummey to escape at Sing Sing.
