## News of the Week.

-A new apparatus for the manufacture of Gas, has lately been invented, and is now on exhibition in Cinein . nati. It is adapted to the production of gas in small quantities suited to the wants of private houses. The machinery is simple and sompact; no unpleasant odor arises from the retort, the gas is of a superior quality, making a elear pleasant and brilliant light. It is claimed that gas can be manufactured at one fourth the price charged by the gas companies. The proprietors of the Cincinnati Gasette have so much confidence in this apparatus that they have ordered one for their establishment, which will be in operation in about ten days. They now pay the gas companies \$1000 a year for gas. The apparatus sufficient for the establishment costs \$550 A few days trial will test the merit of the invention. If successful, the business of supplying the public with gas will be speedily revolution-

-Some particulars in relation to the new expedition for Arotic search were stated by HENRY GRINNELL, V. P., at a recent meeting of the Geographical Society. It appears that the vessel selected for this dury, intended to sail about the last of June, will be commanded by Capt. McCLIFTOCK, of the Royal Navy, who has already conducted one expedition in search of Sir JOHN PRANKLIN'S party, This expedition is undertaken at the instance of Lady FRANKLIN, who has devoted the whole of the remains of her fortunes to the enterprise, having conveyed it in trustees for the purpose. She has purchased for the purnose a serew steam yacht, the Fax, schooner rigged, diagenally, planked, built for the late Sir RICHARD SUPPOR, and now lying at Aberdeen. This vessel is to be atrengthened for the service she is to enter upon, and at once get ready for sea.

-What hoge are fed on in New York is a topic which has lately excited some interest in that city and an exam- fore requested that his name be withdrawn, which was ination has led to very sickening results. In that part of accordingly done. the island appropriated for the Central Park, a large number of swine are kept to be sold in the New York cattle | mont. market. On an examination of the premises of some of the persons engaged in this business, the most disgusting facts were brought to light. Though the law requires that only four swine shall be kept in one lot, more than a hundred were found in some instances in a pen which measured fifty by a hundred feet. They are fed on the intestibes of animals, dead cats, dogs, rats, filth, garbage, and all sorts of putrid matter, including the cast off poultiess from the hospital. We find a long account of these disgusting facts in the Tribune of Saturday.

-The coner's jury, in the recent poisoning case, which has caused so much excitement at Danville, met on Tuesday last. Dr. Lemington testified to the finding of areenis in the stomach of Mrs. Plack and also in the stomach of David Twiggs, and positively affirmed that death in both cases was caused by that poison. The clerks in Chalfant & Hughes' drug store, testified to selling the arsenic at different times to Mr. W. J. Clark and Mrs. Twiggs. The cordict rendered by the Jury was, that the death of David Twiggs and Mrs. Clark was caused by poison, supposed to have been administered by Mrs. Twiggs and W. J. Clark. In accordance with the verdict, both the prisoners were committed for trial.

-William Richmond, an industrious young Englishman employed in a flour mill at Genesee, N. Y., had an acquaintance, a young girl whom he called his cousin .-She sued him for breach of promise, and the jury gave her a verdict of \$500. Then she oxure dhim to be again arrested as the father of her child, and he gave bonds to pay she caused his arrest on her outh charging him with rape. This was too much for Richmond's philosophy; and requesting permission of the officer to go to his room in the mill and change his clothes, he went and blew his brains out with a pistol. The local newspaper thinks he was hitterly persecuted and nopes the young woman's revence

-Robert Burns, a son of the celebrated Scottleh poet, died recently at Dumfries, Scotland, at the advanced age of 77, attended by his brothers William and James, who hold high rank in the military service of the East India Company. The deceased was about ten years old when his father died. He is said to have inherited a portionprobably a small portion-of his father's poetle genius, and to have written some very charming lyric verses .-Whatever may have been his postical merits, he wrote little. During the early part of his life he held asituation under the government, and for many years has led an easy life in the enjoyment of a good income from a government

He itugered about forty eight hours, and died in great advov.

-News has been received that the "Niagara" which was dispatched by our government to aid in laying the submarine cable between the Bastern and Western shores of the Atlantic, will be unable to , artisipate in the enterprise. On account of her great size, it has been found that she cannot got nearer than a mile and a haif of the snot where the cable is to be couled, without obstructing the narigation of the river. The company have concluded to purchase a steamer to take the place or the Niegara.

GO! WALKER'S INAUGURAL ADDRESS. Gov. Walker Belivered his inaugural address at Lesemp

ion. Kasans; on the 27th uft. Its great length precinder te publication entire. ts publication entire.
The Governor sets out with a statement of the circum tances which persuaded him to accept the post of Govern or. The perilous position of affairs in the Territory readered that acceptance a duty, which he did not feel at like erty to decline.

The mode of adjecting the difficulties which beset the Territory, the Gurernor proceeds to say, is provided in the act organizing the Territory, namely, by the people of Kanses, who, by a majority of their own votes, must deeide this question for themselves in furning their State Constitution.

The convention of delerates to form this proposed Con titution,—the Governor g es on to my-is now about to be elected under the call of the Territorial Legislature. created and still recognized by the authority of Congress, and plothed by it, in the comprehensite language of the organic law, with full power to make such an exactment. The Territorial Legislature, then, in assembling this conention, he contends, were fully sustained by the act of Congress, and the authority of the convention is distinctly recognised in his instructions from the President of the

practicable, that the election of delegates to the Convention shall be free from frand or violence, and that they shall be protected in their deliberations. The Gevernor The motion was amended to admit Mr. Worrell, which meets the objection that the Convention is not legally called, by saying:

"The Territorial Legislature is the nowen ordained for in this perpose by the Congress of the United Stater; and in opposing 1th you resist the authority of the Federal government. That Legislature was called into being by the Congress of 1854, and is recognized by the present Chief Magistrate of the Union, just chosen by the American people, and many of its acts are new in operation here by universal assent. As the Governor of the Territory of ansas, I must support the laws and the Constituti and I have no other alternative under my oath, but to see that all Constitutional laws are fully and fairly execu-

The Governor appeals to all good citizens to take part i the election - repeating his conviction that, unless the Conrestion submit the Constitution to the vote of all the actmal resident settlers, and the election be fairly and instly sonducted, the Constitution will be, and on the to be reject ed by Congress. The Governor takes a very decided issue with the polit

adding that-"Those who oppose slavery in Kansas do not base their oppression upon any philasthropie principles, or any sympathy for the African race. For in their so called constitution, framed at Topeka, they deem that entire race so inferior and degraded, as to exclude them all forever from Kansas, whether they be bond or free, thus depriving them of all rights here, and denying even that they can be citisens of the United States, for if they are citisens they could not constitutionally be exiled or excluded from Kanses. Yet such a clause inserted in the Topeka Constitution was submitted by that Convention for the vote of the people, and ratified here by an everwhelming majority of the anti-slavery party. This party here, therefore, has,
