The Great Remedy for Pulmonary Consumption Alm, an effectual cure for Scrafula, Dyspepma, Oustinute Culaneous Eruptions, Chronic Rheumatism, Billions Disorders, General Debitity, and all diseases depending upon an impure state of the blood.

This Wonders in Reasile has done shore to alleriate human sufficing than all other means put together. It has the greatest sale of any medicine in the world for PULNONARY COMPLAINTS; from Mainte to the most retured dwellings of Oregon, or wherever consumption is known, it hade its way, carrying health and joy into thousands of fauntine. The most eminent physicians have been forced to acknowledge that it does cure consumption, and they now use it in their practice as a standard and sure remedy.

There is no spacedy equal to it is building up a system, that, under the inflence of various diseases, hardalips, or exposure, has run down and libst its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposite of tubercie in the lungs; and it is as aars as it is creataly in its action.

Take to distart this, therry Strops, Cherry Pectorals, Inhalation of Vapors, and all other puffer nowtrams for this disease, combine all their virtues into one, and we should not have a remedy which would, at all, compare with time. It at all those men together who have become notorious by advertising that they can cure consumption, and they cannot produce so may read cures during their whole lifetime as we can furnish in one month. This may look like boasting, but it is the solenn truth. And here we would state, for the benefit of those who may not be informed upon the subject, that the system of inhalation has been tried again and again by the best men in the profession, and as often been rejected as use-less. It has been tested and rejected for centuries. If it affords a livie relief, it is sure to be temporary, and the disease returns with increased violency. The reason is obvious, via. Phimonary Consumption is not a leads but a construit, passed to which main is necessarily subject. Reasoning from analytic relief, it is sure to be temporary, and the disease returns with the resurrection, example, and teachings of the Son of God, is that it may be a profession o

ander.

Let me beseech you reader, not to cast this aside because you have been deceived hisptofore by that which bears the appearance of deception on the very face of it. We love to cure year disease; to give you relief; it is our highest ambition; in this we find real pleasure; but we can only offer you the means of cure; 'tis for you have the means of cure; 'tis for you have the means of cure;' dition.

We have recently bought the interest of our brother and partmer, Dr. Wesley Grindle, in the business, and it has become necessary to change the signature on the DIRECTIONS, LARKI, WRAFER, &c., to our own We will here state, that this immense business from a few months after its commencement has always been conducted by ourself alone; and we can assure the patient that

conducied b) ourself alone; and we can assure the patient that the same deep interest, care, and expone we have ever manifested in manofacturing the medicine in a pure state, and dispatching the same, will hereafter be continued with no less seal.

37 As the saie of our Manuc Controcurb is new mormous, and about all respectable druggists and dealers in medicine on this continent are herping it for min, we have been to a great exposuse in having the box-wrapper engraved with rearison derices to prevent counterfailing. Should you have the lesses suspicion of those from whom you may purchase the medicine, inclose the wrapper to us, and you will immediately be informed if it is gennine. Whoever will inform us of a counterfairer, and will prove the same, shall upon their conviction, receive not less than TWO THOURARD DOLLERS.

PRICES.—One box, \$3 00; three boxes, ordered at one time \$8 00; half down, \$16 60; one desen, or any number greater, at the rate \$3 00 a box.

The postage in the United States, set over 3,000 miles, is fifteen conta a bex; ever 3,000 miles, fifty cents a box. In all cases the amount should be incleased in money or stamps.

Dispatcases are promptly inside by mail and express. Less than half down horse are usually sent by mail, is a number of packages.

We are responsible for all moneys inclosed in letters directed as we request. We have such a complete system indoing this business, that it is hardly possible a mistable will occur.
