WHAT WAS DONE IN COURT .--- Judge GALBRAITE'S West and south at half price. The remainder to be made Court last week was a bury "institution." Some eighty an from the morributions of the benevalent. We cortain two cases were tried, or otherwise disposed of -- embracing inthem an operatoric of the barnen race at this perticula. all grades of erime, from mansianghter down to assault and battery, and from selling liquor without license down to libel. We would give the list in full, but room forbids .-Suffice it to say, that the disposal of the number of cases given, together with the great amount of other business such as petitions, motions and arguments, shows probably the largest amount done in the courts of this county in any one wook, for a number of years. At least such is the ominion of some of our attorneys with whom we have conversed. The most important case tried was that of Michel Shehan indicted for manslaughter. The particulars of this affair we gave the outpought of weeks since. It appeared from the testimony that the despaced, John Lindt, kept a grocery on French street, that when out in front, putting up the shutters, preparatory to closing for the night, he was attacked by a party of rowdies, knocked down and otherwise abused-that he escaped from them into the houseand that after he had made his escape, a brick was thrown through the window which, hitting him on the head, caused his death. It appeared also, that Shekan, who keeps a Grocery opposite, mixed in the row, and it was alleged was the person who threw the brick. All these allogations were protty satisfactorily proved-but the testimony f the defence was equally strong, preving that so far from throwing the brick, he had went over to protect Lindt-

that he did protect him into the house, and otherwise showing his good feeling towards him, and hence that could not have been him who throw the fatal missile. The case was ably argued by the District Attorney and Wm. A. Galbraith, Req., for the Commonwealth, and by Mesers. Walker and DeCamp, for the defence. After being out sometime the Jury came jato Court, and returned a verdiel of Manslanghter. Before sentence was pronounced, : motion was made for a new trial, and on Monday the queetion was argued. In the mean time Shehan was admitted

to ball in the sam of \$1500. On Thursday Judge Galbraith granted the motion for a new trial, and admitted the prisoper to ball in the sum of \$2000 for his appearance at the next termying \$2000 in surity of the peace.
