The Recent Massacre Upon the Plains.

The Lo. Angelos Star gives further details in regard to the horrible massacre of emigrants on the Plains, reported by the last steamer from California;

The detaile, as far as yet known, are those :--A train of emigrants from Missouri and Arkansas, for this State, were waylaid and cruelly butchered on the route, at a place called Santa Clara cannon, near the rim of the Great Basin, about 300 miles from Salt Lake City. scene of the massacre is differently designated. as the Santa Clara cannon, the Mountain Springs, and the Mountain Meadows. But all agree in ocating it near the rim of the Great Bann, and about fifty miles from Cedar City, the most southern of the Mormon settlements. Of a party of about 130 persons, only fifteen infant children were saved.

The account was given by the Indians themelves to the Mormons at Cedar City, to which place they brought the children, who were purchased from them by the people of that city .-Whether the causes assigned is sufficient to account for the result, or whether a different cause is at the bottom of the transaction, we will leave the reader to form his own conclusion. We can scarcely believe that a party traveling along a highway would act in the manner described, that is to poison the carcase of an ux, and also the water, thus endangering the lives of those who were coming after them. Yet this is the story told by all who have spoken of the massacre. It is stated the emigrants had an ox which a continuity appears and were similarly also poisoned the water standing in pools, for the debris of the Moree bastion the purpose of killing the Indians; that several died, and they placed poison in the body, and a light gun or two at intervals replied to of the tribe had died from this cause, and that but and shell that were poured into the whole force mustered, pursued the train, and coming up with them at the above-named place, and suffered scarcely less severely, its which favored their purpose, attacked and murdren.
