OFFICE OF THE ERIE CANAL COMPANY,

CHA'S M. RENO,
JAMES C. MARSHALL,
JOHN A. TRACY,
J. HEARI,

JOHN SWEENEY,

At a meeting of the Board of Directors of the Erie Canal Company, held Jan'y 1st, 1859, the following Pro-amble and Resolutions were usenimously adopted: WHEREAS the repairs on the Canal, for the year ending the 31st of December, 1857, have been very large, and have absorbed a large part of the receipts of said Canal for the same time: And selectors OHARLES B. PERROSE, JAMES J. DUNCAN USE Of MORROW B. LOWRY, and Fox and Van Hoor, have severally issued Excention Attachments against said Rrie Casal Company, and attached all the funds in the Treasury—and the and attached all the funds in the Treasury—and the company and peculiarly so to the community around same are now under the direction of the process of the Court: And selectors the business of said Company, in the last year, has been greatly embarrased by the proceedings of said parties: And selectors are advised, and believe, that said proceedings, in main road fro proceedings of said parties: And selected the Directors are advised, and believe, that said proceedings, in attaching the money of said Company in the heads of the Treasurer and his depositary, are liferal, and company in the heads of the Treasurer and his depositary, are liferal, and company condition. The Board should decide whether they resulted the process of the law:—Therefore,

"Resolved, That the Company cannot, under the said report. The Summit has not altered materially since my combarrassed circumstances in which they are now plained, pay any interest on the Board and Cartificates of Indebtedness of the Company, for the year ending December 31st 1857—at heat will be contemplated dredging has not been done.

Indebtedness of the Company, for the year ending De-cember 31st, 1857—at least until said Attachments are disposed of.

"Resolved, That as soon as the said

"Resolved, That as soon as the said Attachments re disposed of, and with a result favorable to the Company, then the Company will pay a dividend of interset to the holders of Bonds and Certificates of Indebtates, to such amount as the funds in the Treasury thall permit."

Treasury are disposed of, and with a result favorable to the Company, then the Company will pay a divideed of interest to the holders of Bonds and Certificates of Indebt-A. H. CAÚGHEY, A ttest.

To the Honoruble, the Senate and House of Representutives of the Commonwealth of Pennsylvania. OOKS. GENTLEMES.—The Act of Assembly, approved the Severally seth day of March 1843, incorporating the Eric Canal Company, requires that the Treasurer of the said Company. Company, requires that the Treasurer of the said Company shall, on the second Tuesday of January in every year, and particularly so in relation to the Elk Crock and remaint to the Legislature, sworn or affirmed to, a statement of the affairs of the Company.

In compliance with the said act of Assembly the undersigned. Treasurer of the Eric Canal Company, has the honer of presenting your Honorable bodies with the fellowing. in compliance with the said set of Assessing the under-signed, Treasurer of the Eric Canal Company, has the hon-er of presenting your Honorable bodies with the following report of the financial condition of the Company made up from venchers and records of this office for the year anding Sist Dec. 1867; as follows:

David McAllaster as Treasurer, in account with the Erie Canal Company, . To balance in the Treasury as reperied

Superintendent's Report. To the President and Directors of the Eile

To the President and Directors of this Erie | No. 18 | No

condent upon the use of this Canal, and

measuredependent upon the use of this Canal, and eaght not thus to be soptimally interrupted by these whiving a mere local inferent or feeling to gratify.

The expense of insping watchmen there the past stasts to prevent further aggressions has been very considerable, and if it sould have been safely avoided, could him better invested to the interests of the community, and the creditors of the Usual.

Up to the let September of this year, your Ognal was noting a prosperous funiness—receipts for tolk increased. Since their, however, owing to the derangement in financial mattern, (it is presumed), it has largely fallen off in its receipts of tolks. The three months enuming were expected, confidently, to have been better than ever before. Nevertheless the collections compare favorably with those of previous years.

verably with those of previous years. FRENCH CREEK FREDER.—I can hardly say anything more than to reiterate what was said last year in relemore than to reiterate what was said inst year is relation to this part of your Canal, in reality the most important part. I cannot cease to recommend to you the importance of increasing its canneity for passing water to keep up your Bammit; much has been done towards this end, and much more is required. The acqueduct across Frénch Oreek has been renewed the last seases and its canneity increased more than one-third and, answess well—no detention or wasts of water these that can be forced down the Canal from the Dam. On the 14th June last, a most extraordinary and unusual flood caused a very serious break in this Feeder felipy Madville, which together with several smaller once, a great amount of washing in of barades, cost seems \$2500 to repair; which, added to the rebuilding of the aqueduct, repairing of Bemus Dam, ripraping at Conneaut Lake, has very much increased its ordinary line of expenditure. Beyond this, several new waste wiers have been built, spills seasewed and others repaired, according for the support. PANIC GOODS

ed, and other matters too numerous to be embodied in this report. A new acqueduct across Watson's Ran on this Feeder must be built this winter.

On this Feeder must be built this winter.

CONTRADY LAKE & SUMMY.—Throughout the entire season almost, this Lake has been dangerously high.

There has for five years past been no provision to regulate it. It has taken all the precaution and manage ment we were capable of to keep it within its banks. If it had broken it would have been disastrous to the under contract will be completed in time, and will

contemplated dredging has not been done.

Conseaur Linz.—The expenditures on this Line of your Canal are large, and for the reasons given in re-

ed, the last sesson, and more are required. Nine Waste wiers have either been rebuilt entirely, or faithfully repaired the last year, together with many of the Waterways, Tow-path and Farm bridges, &c. In the month FIFTEENTH ANNUAL STATEMENT OF THE TREAS-URER OF THE ERIE CANAL COMPANY TO THE LEGIBLATURE OF THE COMMONWEALTH OF Sood, causing seven large breaks and several smaller ones, taking out two waste-wiers entirely, nearly desones, taking out two waste-wiers entirely, nearly destroying the the feeder dam, near Conneautville, and doing much other damage to its banks, washing in of bars, &c. Preparation for the repairs necessary on this Line of your Oanal, generally, have been provided. As the above Goods have been bought for Cash and the work is in a

> present one will be put in such equidition as to be safe for the coming year, in my opinion, and that is confirm-ed by those more competent to judge. The latter, I am convinced, will be good for two years more. The weigh-Lock at Erie will require to be rebuilt or to have extensive repairs this winter.
> SHENANGO LINE—I'his Line has met with no serious disasters from the floods of the past season beyond a few small breaks confingent upon the flowing of the Shenango into the Canal. From Harts Town to New-

one at Clarisville, have all been renewed or repaired and are in good order. A new change bridge will be required above lock 11, and the pier below the Lock there repaired; an entire new acqueduct near Pulaski on this Line has been built this year. From Hartstown North most of the gates have been renewed, and others that are necessary are in process of renewal. Lock No. 43, ou this line, a symmetric sequence of the process of renewal. require extensive repairs or to be rebuilt entirely. BRAVER DIVISION. -- In my last report to you I said

that this Division was in good order, but that it was impossible to predict what the floods to which it is subject would render necessary to be done in the spring." This suggestion has been fully realized. The immense flood of February last took out nearly entire immense flood of February last took out nearly entire the Hardscrabble dam, injured much the Caniquon-easing dam, the Adam's dam and the crib work below it, almost destroying Patterson's dam, and doing more or less damage to all the rest of the daims on this Division, and moreover filling up-with the wash from the hills more or less the prism of the Canal throughout. hills more or less the prism of the Canal throughout. The Towpath bridge at the crossing of the Caniquo-nessing creek that had been recently rebuilt at a very considerable expense to the Company was again sutirely swept away, together with every towpath bridge with only two exceptions. I believe, on the entire slack water. This has been twice repeated this seating flood succeeding flood has been the order on this Division this year. The Caniquonessing bridge by direction of the Board this season has been dispensed with and ferrying substituted. The rest of the bridges have been replaced, whenever they could be with

have been replaced, whenever they could be with stone. The Hardscrabbie dam has been thoroughly re-paired and is now as good as new or better; and so with Patterson's and the other dams from Newcastle down, with the exception of the one at Beaver, which it was not possible to repair on account of high water.
The condition of the Canal generally when closed this season, in view of the year to come was perhaps better than for the last six years. And invitor I desire to and time every court mee hear made to councinie in its armenditure.

Moreover I have an abiding confidence in those who are associated with me in its management, that they have faithfully, honestly, and energetically performed their duties, and with as much economy as the strictest justice would allow, to which I desire to bear

testimony; and as to its expenditures, I challenge a comparison with those of any other work in the Com-monwealth or elsewhere, of the same character and
