To Machinists and all Using Steam Engines

Hawkins, Goodwin & Cummings'
IMPROVED
Valve Air Cock!
PATENTED DECEMBER 15th, 1857.

The above cut represents an important improvement in Air Cocks for Force Pumps connected with Steam Engines, to which the attention of the public is respectfully solicited

It will be found useful in all cases where steam engines are employed, but especially so where it is necessary to use a high pressure of steam or where the water is supplied from a well

When the packing becomes impaired, or the feed pipe fractured, the use of this improvement will enable the p
