THE NEW YORK STEAM SAW-MILL MACHINE COMPANY. CAPITAL \$250,000.

This company has been origanized with the above capital for the purpose of supplying the demand for the COMBINATION

PORTABLE STEAM SAW-MILL

AND OTHER IMPROVED MACHINERY

THIS Y have purchased the entire machinery business heretofere carried on J M. Emerson & Co., also the Montgomery Works at Yonkers, on the Hudson, near this city, and with the experience and facilities combined in its organization are prepared to turnsh machinery of all kinds at more liberal rates than has every been offered at any other establishmore.

THE COMBINATION SAW-MILL was patented October, 1856, and is now generally acknowledged to be the cheapest, most practical, and efficient lumber manufacturing machine in the world—A large number of them are in successful operation in different sections of this connery, Canada, Cuba, and south America, and sections of this connery, Canada, Cuba, and south America, and A large number of them are in suppressful operation in different sections of this country, (anada, Cuba, and south America, and wherever their ments have bega tasted they are being adopted by lumber manufacturers in preference to all other miles. Means: Emission 2.0 — Geneticmen: I have tried the saw-mill purchased of you, and will say that it performs well, and more than mose my expectations. I am well pleased with the performance. I set it up on a small size on the afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of wood. It is the very thing we have so much needed in our counts for a long time. With a little trouble and expense, we are shie to move it from five to ten miles per day, and get it up in the heart of the tunber, which saves the great burden of hauling the logs a ong distance to the mile.

The Company have purchased LI NUS PATENT FEEL AR.
RANGEMENT, which is illustrated and described by the Scientific
American for October 24. This adds greatly to the efficiency of
the mills.
THE COMBINATION MILL, with all the recent improvements
and steam power of It horses, is capable of sawing from tousing
4,000 feet in twelve hours, and is sold for \$1,650

THE NEW YORK CERCULAR SAW MILL. THE NEW YORK CERCULAR NAW MILLS. Is manufactured only by this Company. It is of supernor construction, and sold for 25 per cent less than other mills of acgreater capacity.
