News of the Week.

Intelligence has been received at the Department of State, from Mr. Reed, our Minister at China. He will probably return home by the overland route, in September. Life on a mission to the East, with a wife and child, and with a mission to fulfill, is not particularly inviting, and the delays of Chinese diplomacy do not give much promise of a speedy termination of the important mission, which has engaged the attention of three great nations. Mr. Reed has been actively engaged in the suppression of the Opium trade, treating it as involving the same principle as the slave trade. This presents an important question here, which has yet to be considered by the Cabinet, before adopting the positive policy of our able and efficient Minister. The Administration is quite satisfied with the manner in which Mr. Reed has represented the country, and it may well be for amongst whole diplomatic corps, without making a single exception, that there is not a man who compares with him in intellect, grasp, astuteness or address, for such a position. This is acknowledged and felt on all sides.

Quite a ludicrous scene occurred in one of the churches of St. Catharines, C. W., a few Sabbaths since. One of the largest kind of hooped females, after selling up the altar, and attempting to do so, was interrupted by the immense mass that had gathered about half way through, "stuck fast," and all the efforts, squirms, kicks, squeals and contortions of the fair occupant were unavailing to move the "coons." The sexton—who is a colored man—and one of two of the church officers, got out, and the woman, who was in a state of great excitement, was obliged to be carried out, and the church was closed for the day. The "colored gentlemen" were suddenly brightened up with an idea, "Let's cut her, boys—let's cut her!" and the sexton, who had been called in, was accordingly, was carried out, and the church was closed for the day.

The Wisconsin Legislature did not adjourn without adopting measures calculated to prevent the recurrence of such scandalous transactions as the late bribery of public men by the President of the Milwaukee and La Crosse Railroad Company. As yet we have not seen the bill, but we presume it will be a very good one. It is to be hoped that the Legislature will also take measures to prevent the recurrence of such transactions as the late bribery of public men by the President of the Milwaukee and La Crosse Railroad Company.

When Mr. Fillmore became President, his friends in New York presented to Mr. Fillmore a splendid carriage and horses, which were used by him and his family until the expiration of his term, when it became a question what should be done with this elegant establishment. Mr. Fillmore's friends did not justify him in living in a style suitable to such a high position, nor was it desirable to his health, and he accordingly sold the carriage and horses, and the proceeds were used for the benefit of the poor.

The Buffalo Republic states that a disease, similar to its effects to the "Washington National Hotel," has broken out in a first class public house at Chicago, the name of which is not given. Several Buffaloes are reported to be suffering, and it is believed that the disease is of a very contagious nature, and is likely to spread to other parts of the city.

It is alleged that one of a list of forty-four vessels which claim to have been captured by the British was wrecked on a small island, and that the crew were all killed. It is said that the vessel was captured by the British, and that the crew were all killed.

The President of the United States has prominently mentioned the name of the late General Grant, in view of the fact that he was one of the most distinguished officers of the Army, and that he was one of the most distinguished officers of the Army.

THEY COMPLETION IT MAY COME AT
GEN. LANE, THE HERO OF BENDING BARBAR, AND HIS SUCCESSORS OF COL. JENKINS.

Like every other man of extraordinary ambition and personal energy, Gen. Simon Cameron, who now represents the Republic of Pennsylvania in the Senate, has the personal popularity, the energy, and the qualities that are supposed to adorn the successful statesman. He is at least a head and shoulders above other political pignons as Beward, Chase, and other "biting lights" of his party. Believing this, it is not to be supposed that he is willing to hide his light under a bushel when there is such a capital chance to let it shine in the Presidential arena. The first time we think we ever saw him, he was in the city of Philadelphia, where he was the "litter-vagabond" for a Presidential campaign. He was the "litter-vagabond" for a Presidential campaign.

"It is within the aspirations of every American politician to be a candidate for the Presidency. Many of our cities have a candidate for the Presidency. Many of our cities have a candidate for the Presidency. Many of our cities have a candidate for the Presidency.

NEW YORK
New York, June 14, 1858.

Jack Frost preserves us! From the appearance of summer heat, from the fervor of a goddess whose warmth of passion atones for the length of her delay. Umbrellas shield us! Boreas, breathe upon us! Boreas, breathe upon us! Boreas, breathe upon us!

Politically there is not much stirring in the metropolis. The federal offices are disposed of, and hence, with the exception of a sore-head occasionally, there is little said on the Democratic side of the political chess-board. Among the Republicans strenuous efforts are making to bring all the discordant elements opposed to the Democracy together, and thus reconstruct the party.

In the line of gossip, we have a few items—A Miss Mary Ann McDonald, a good looking young widow, brought an action against Mr. George Walsh, to recover \$5000 for a breach of promise of marriage. The fair plaintiff is a fashionable boarding house keeper, and has two marriageable daughters, both of whom were in court, with a number of their lady friends, as witnesses against the faithless George.

As for business, it is stagnant. Half the money is being loaned to the very people who want to borrow are those with whom lenders do not deem it negotiable. Money at 3 per cent a year! Last year, just four months later than this time, the street rate was 3 per cent a month.

The religious interest is still sustained in this and the neighboring cities. Immense numbers have joined the churches of all denominations at each appropriate season. Sermons are getting to be quite saleable; in fact, for a new feature, a sermon has been advertised to sell a weekly paper, just as through it were a novelty.

Major Troman is still forging in all directions against all sorts of swindlers and awaking many expressions of indignation and many threats of vengeance from those whose business this interfered with. The result will probably be that swindling will probably take on some more refined and specious guise than it has hitherto been found necessary to assume.

THE PRESIDENT'S MESSAGE—SOME IN OIL
From the Washington Union.

We lay before our readers this morning a very important message from the President of the United States, which will be read with great interest and satisfaction by the whole country, for it announces the triumph of the Utah policy pursued by the Administration. The troublesome problem of Mormonism has been solved by the promptness, decision, and resolute firmness of Mr. Buchanan. The festering sore, has been subjected to the knife and actual cure. The experiment has proved perfectly successful. The disease is cured. The country will hail with intense satisfaction the news of the Mormon question to the laws and officers of the United States.

So long as the forces sent to Utah were inadequate to overawe the Mormons, they did not scruple to commit any act of rebellion and war. Indeed, by a unanimous vote of their legislature, these deluded people adopted an address to Congress, so reasonable and dispassionate that it was treated with the greatest indignity by that body. Whilst General Johnston's little command seemed to be beyond the reach of success or support, nothing but vengeance was breathed from the tabernacles of the Mormon Prophet; but sooner and ample preparations were made to march a crushing and overwhelming force to the City of the Saints than a change was obvious in the demeanor of the Mormons. Day by day their resolution grew fainter and fainter, until the banners of our advancing columns had scarcely been fairly unfurled to the winds of the prairies, before Brigham Young and his dupes fairly "cut and run" to the sixty thousand saints snugly ensconced in the centre of the mountains.

In the line of gossip, we have a few items—A Miss Mary Ann McDonald, a good looking young widow, brought an action against Mr. George Walsh, to recover \$5000 for a breach of promise of marriage. THE WEST THE SEAT OF EMPIRE—Caleb Cushing, in his late speech at Boston, paid the following elegant and striking tribute to the West:

"Jealous of the South! Such would not be my theme, if the demon of sectionalism had so far possessed itself of me. I should not strive to draw the attention of Massachusetts away from the only real danger of a sectional nature which threatens, and to fasten her attention upon an imaginary one. Nor by the comparatively small section of the Union lying between Mason and Dixon's line and the Gulf of Mexico in the scope of the power in this Union to be held hereafter; but by those vast regions of the West; State after State stretched out like star-bright stars in the blue depths of the firmament, far away to the shores of the Pacific. West is the power of the old thirteen, North or South, compared with that of the mighty West! There is the seat of empire, and there is the band of imperial power. Let me not of the perils of the slave-power, and the encroachments of the South—let me not of the South, which will together be as clay in the fingers of the power, when the great West shall stretch forth the arm of power, as long it will, to command the destiny of the Union."

The British aggression resolutions adopted by the Senate conclude that the recent outrages were, in the judgment of the Senate, such unequivocal and final disposition of the subject by the governments of Great Britain and the United States touching rights involved, as shall satisfy the just demands of this government, and preclude hereafter the occurrence of like outrages. That the Senate fully approves of the action of the Executive in sending a naval force into the infested seas with orders to protect all vessels of the United States on the high seas from search or detention by the vessels of war of any other nation, and it is the opinion of the Senate, that if it becomes necessary, such additional legislation should be applied in aid of the Executive power as will make such protection effectual.
