

MISCELLANEOUS.

OUR COUNTRY.

BY JUDGE STORY.

When we recollect what has been, what is, how is it possible not to feel a proud sense of the responsibilities of this Republic to all future ages!

The old world had already revealed to us, in its unsealed books, the beginning and end of all its marvellous struggles in the cause of liberty.

Rome! Republican Rome! whose eagles glanced in the rising sun; where and what is she? The eternal city yet remains proud even in her desolation.

And where are the Republics of modern times, which clustered around immortal Italy? Venice and Greece exist but in name.

Such as we are, we have been from the beginning simple, hardy, intelligent, accustomed to self-government and self respect.

Already has the age caught the spirit of our institutions. It has ascended the Andes, and snuffed the breezes of oceans.

Can it be that America, under such circumstances, can betray herself? That she is to be added to the catalogue of republics, the inscription upon whose ruin is, "they were, but they are not?"

"IS HE RICH?" Many a sigh is heaved—many a heart is broken—many a life is rendered miserable, by the terrible infatuation which parents often manifest in choosing a life companion for their daughters.

Is he rich? Yes! he abounds in wealth; but does that afford any evidence that he will make a kind and affectionate husband!

Is he rich? Yes! his clothing is purple and fine linen; and he fares sumptuously every day; but can you infer from this that he is virtuous?

Is he rich? Yes! he has thousands floating on every ocean, but do not riches sometimes "take to themselves wings and fly away?"

Is he rich? Yes! he has a fine house, but does that afford any evidence that he will make a kind and affectionate husband!

At last, after a minute or two, I could contain no longer, and burst in a horse laugh. "The old fellow turned quite pale, and began to suspect something."

Book Farming.—Show me a thrifty, practical and experimental farmer, and I will show you a man who reads works on Agriculture, or who borrows his hints from a neighbor that takes an agricultural paper.

Can it be that America, under such circumstances, can betray herself? That she is to be added to the catalogue of republics, the inscription upon whose ruin is, "they were, but they are not?"

I call upon you, FATHERS, by the shades of your ancestors, by the dear ashes which repose in this precious soil, by all you hope to be, resist every project of disunion; resist every attempt to fetter your conscience, or smother your public schools, or extinguish your system of public instruction.

I call upon you, MOTHERS, by that which never fails in woman, the love of your offspring, to teach them, as they climb your knees, to lean on your bosom, the blessing of liberty.

I call upon you, young men, to remember, whose sons you are, whose blood flows in your veins. Life can never be too short, which brings nothing but disgrace and oppression. Death never comes too soon, if necessary, in defence of the liberties of our country.

fair price, and yet there are within the distance of a few miles from this city, hundreds of acres that are not yet put to profitable use.

Already within a few miles of Brooklyn, many gardeners have taken their positions, and their industry we have reason to believe is well repaid.

Our farmers as well as gardeners, should pay more attention to the cultivation of fruit. It is in vain to think of realizing much wealth in the cultivation of grain and other crops, which are yielded upon the fat and ample territory of the West.

We shall see in a very few years many beautiful gardens and horticultural establishments on Long Island. Our farmers are learning every year, more and more of the means of rendering them available, by cultivating the products required for the markets.

"I think agriculture the most honorable of all employments, being the most independent. The farmer has no need of popular favor of the great: the success of his crops depending only on the blessing of God upon his honest industry."

Curing Beef and Pork.

A writer in the Farmers' Cabinet, gives a receipt for curing Beef and Pork, which from several years experience, has satisfied him of its excellence:

- For Beef—200 pounds. 12 pounds Liverpool salt, 8 gallons water, (pure and soft), 1 pound brown sugar, 4 ounces saltpetre, 1 quart ley.

These ingredients are to be mixed with the water cold; well stirred and skimmed and put on the beef cold—no fire being used in the process.

Pack your beef in the cask, and between each piece sprinkle a little fine salt; then pour over the pickle, and let it stand until salted to your taste; usually about four weeks are sufficient.

The same receipt answers for pork using 15 pounds of salt instead of twelve. I have never failed of having the choicest hams by pursuing this method.

The following is our mode of curing, as well as that of a number of gentlemen of this place, and we think there can scarcely be a better. It requires a little more labor than the above, but the satisfaction and benefit of having clean and pure meat, more than compensates for it.

- 1 gallon of water. 1 1/2 lb. salt, 1-2 lb. sugar, 1-2 oz. saltpetre.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off. Then throw it into a large tub to cool, and when perfectly cold, pour it over your beef or pork, to remain the usual time, say four or five weeks.

The meat must be well covered, but will want no sprinkling or rubbing of salt before or at the time of putting down. Let this mode be once tried, and our word for it, it will be tried again.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

Let these be boiled together until all the dirt from the salt and sugar, (which will not be a little,) arises to the top and is skimmed off.

TO THE PUBLIC.

DR. EVANS' PILLS.

INTERESTING CASE CURED. By Dr. Wm. Evans' Camomile Tonic and Family Aperient Pills.—Benjamin Brown, corner of Shippen and George streets Philadelphia, was affected for seven years with extreme nervousness, by which he was not able to write his name—his symptoms were, excruciating, daily spasmodic pains in the head, loss of appetite, palpitation of the heart, giddiness and dimness of sight, utter inability of engaging in any thing that demanded vigor or courage, sickness of the stomach, impaired appetite, coldness and weakness of the extremities, emaciations, and extreme debility, disturbed rest, a sense of pressure and weight at the stomach after eating, great mental despondency, severe flying pains in the chest, back and sides, costiveness, a dislike for society and conversation, Mr. B. has made trial of various medicines now before the public, but to no effect, until, observing in a public paper some cures performed by Dr. Wm. Evans' Camomile Tonic and Family Aperient Pills, he was induced to give them a trial, of which he is at this time happy to state, that they effectually cured him of the above distressing disease.

Persons who doubt the above cure, are most respectfully directed to the above mentioned person, at the north west corner of Shippen and George streets.

BENJAMIN BROWN. October 17, 1838.

LIVER COMPLAINT, cured by Dr. Wm. Evans' Camomile Tonic and Family Aperient Pills.—Mrs. Lytle, Mount Joy, Lancaster, co. Pa., completely restored to health, by Dr. Evans' Camomile Tonic and Family Aperient Pills. Her symptoms were, great pain in her right side, could not lie on her left side without an aggravation of the pain disturbed rest. Extreme debility, pains in the head, loss of appetite, palpitation of the heart, giddiness and dimness of sight, languor with other symptoms indicating great derangements in the function of the Liver.—Miss Lytle, daughter of the aforesaid Mrs. Lytle, has also been restored to perfect health by the same invaluable Medicine. Her symptoms were extreme Nervousness, attended with a severe pain in her side, sickness on the stomach, eruptions, &c. Mrs. Lytle has the pleasure of informing the public that numerous cases similar to her own, (in her vicinity) have been restored to health by the same invaluable Medicine. General Office for the sale of Dr. Wm. Evans' Camomile Tonic Pills, is at No. 19, North 8th street Philadelphia, a few doors above Market.

October 17, 1838.

TO THE PUBLIC.

MORE PROOFS OF THE EFFICACY OF Dr. Wm. Evans' Camomile Tonic and Family Aperient Pills.—Mr. Joshua Swain, Cape May county, N. J., effectually restored to health from the following distressing symptoms:—Extreme debility, attended with constant pain in the side, back and limbs, giddiness and dimness of sight, sickness at the stomach, impaired appetite, difficulty of breathing, great pressure and weight at the stomach after eating, depression of spirits, coldness and weakness of the extremities, flying pains in the chest, costiveness and other symptoms necessary to enumerate. Mrs. Swain, wife of the aforesaid Mr. Swain, has also been restored to health by the above invaluable Medicines. Her symptoms were:—Nervousness, headache, pain in the side, loss of appetite, disturbed rest, eruptions &c. The public are hereby informed that their motives for making this declaration are, that others afflicted with like symptoms may receive information of, and be cured by the same invaluable Medicine.

INTERESTING CASE OF DYSPEPSIA AND HYPOCHONDRICISM, cured by Dr. Evans' Camomile Tonic and Family Aperient Pills.—Mrs. Good of Mount Joy, Lancaster county, was affected for 7 years with the above distressing symptoms, of which she was confined to her bed for 9 months. Her symptoms were:—depression of spirits, sickness at the stomach, headache, impaired appetite, great pressure and weight at the stomach, after eating, great mental despondency, flying pains in the chest, back and sides, costiveness, emaciation, coldness and weakness of the extremities, a dislike for society or conversation, involuntary sighing and weeping, and languor and lassitude upon the least exertion. Mrs. Good was in the most desperate situation, and could obtain no relief until she was cured by the above Medicine to make trial of Dr. Evans' Camomile Pills of which she is happy to state, that she is now enjoying all the blessings of perfect health. Persons desirous of further information will be satisfied of every particular of her astonishing cure by applying at 19, North 8th street, Philadelphia, or at her residence.

The above medicine can be had at the Stores of E. L. of Springfield, Del. co. H. P. Lloyd, Darby. H. L. Powel, Chester. August 24, 1838.

INTERESTING CASE OF DYSPEPSIA.—Cured by Dr. Wm. Evans' Camomile Tonic and Family Aperient Pills.—Mr. George Elm, Broad street below Walnut, afflicted for several years with the following distressing symptoms:—Great pressure and weight at the stomach, after eating, giddiness and dimness of sight, sickness at the stomach, constant headache, impaired appetite, difficulty of breathing, languor, lassitude, great depression of spirits, a sensation of fluttering at the pit of the stomach, irregular pains in different parts of the body, costiveness; a dislike for society or conversation, coldness and weakness of the extremities, emaciation and general debility, disturbed rest, with other symptoms which it is not essential to enumerate. Mr. E. had given up all hopes, as he had made trial of all other remedies before the public, but to no effect, until he was advised to make trial of Dr. Wm. Evans' Tonic Pills, of which he is happy to state, that they effectually restored him to health by taking three packages.

DR. Wm. EVANS' CAMOMILE PILLS.—Happy would it have been for many persons, of both sexes, who are now in the silent grave, if they had learned to check the morbid tendencies of their stomachs and bowels, by these pure Tonic and Aperient Pills, manufactured by Dr. Wm. Evans, of New York, without restoring to quick Remedies, the names of which are concealed, and of which they know nothing. That dreadful scourge, CONSUMPTION, might have been checked in its commencement, and disappointed of its prey, all over the la, if the first symptoms of Nervous Debility, had been counteracted by CAM-

OMILE, chemically prepared, and those bowel complaints, which lead to a host of fatal maladies, might have been obviated by the pure alkaline extract of Rhubarb, which is a leading ingredient in the Aperient Family Pills. Before both of those medicines, which are adapted to a majority of the purposes for which a hundred others are unnecessarily used, fevers, agues, bilious disorders, headache, female debility, male decline, indigestion, and liver complaint, would have entirely disappeared, where many of them have proved fatal.

PERSONS who are troubled with sick headache, faintings, or giddiness, palpitation of the heart, lowness of spirits, loss of appetite, pain in the side, general debility, or bodily weakness, rejections of food, &c., may be effectually restored to health by using DR. EVANS' CAMOMILE TONIC and FAMILY APERIENT PILLS, which are invariably recommended by all those who have used the invaluable medicine. Perseverance in the use of this invaluable medicine, will undoubtedly effect a cure even in the most acute or obstinate diseases, but in such cases the dose may be augmented according to the inveteracy of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at all times and under any circumstances.

Office and General Depot, No. 19, North 8th street, Philadelphia.

The above medicine can be had at the Drug Store of Samuel F. Green & co, in the Borough of Huntingdon.

MORRISON'S PILLS. R. FINNER, General agent for Pennsylvania, Maryland Delaware &c, No. 7 1/2 south seventh street, 3 doors below Market street Philadelphia, and No. 10 North street, Baltimore, near the Post office.

Health secured by the use of the Hygienic Vegetable Universal Medicines of the British College of Health, London

WHICH we obtained the Approbation and Recognition of Thousands who have been cured in Consumption, Cholera Morbus, inflammations internally or externally and all diseases of the Liver, Yellow Fever, Rheumatism, Lumbago, &c. Dolorax, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy, Palsy, Green Sickness and all obstructions to which the Female form is so distressingly liable, and which seem so many of the fairest portions of creation to their untimely graves; Small Pox, Measels, Whooping Cough, Scarlet Fever, Asthma, Jaundice, Gravel, Stone, and all Urinary Obstructions, Fistula, Piles, Strictures, Ruptures, and Syphilis in all its stages, Constipated Bowels, Worms, Scoury, Itching of the skin, King's Evil, and all Cutaneous Disorders; in short every complaint to which the human frame is so dreadfully subject, under all their varied forms and names; as the Hygienic variation is, that man is subject to only one real disease; that is, to the impurity of the blood, from whence springs every complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its vicious acid humors, with which it has become contaminated.

This valuable medicine, being composed only of vegetable matter, medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are ungenial to the human frame) is found to be perfectly harmless to the most tender age, or weakest frame under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in securing out the most distressing complaint, however severe, and of performing a cure that was ever offered to the world.

This wonderful effect, too is produced by the least trouble to the patients, by merely swallowing a certain number of pills, and being called a few extra times to the purpose of evacuation, with the least possible sensation of pain, exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different from the accustomed habits. These pills cure in all cases, and are taken with ease. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact; and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by the operation, because they clear the body of its bad humors, and invariably procure sound sleep. They are the safest and most efficacious Medicine to take to sea, preventing scurvy, costiveness &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose; it is beneficial to the mind as the body; first calming then urinating all Mental derangements, Eccentricities, Nervous Affections, Irritabilities and Restlessness, from whatever source; complaints which have hitherto not been cured by the Hygeists have found them all to proceed from acrimonious humors in the blood, and, happily for the present and future race of mankind discovered a cheap and universal mode of purifying, curing and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—perseverance in the Vegetable Universal Medicines will always regulate to her due course. The literary and edentary, of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be obtained by the use of them and passed free from pain and infirmities.

The are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease obstructs patients frequently do not take doses large enough.

The Medicines is comprised in three different articles only, viz: No. 1 and 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the bilious rosy humors, whilst the No. 2 Pills carry off those and the serous acid and putrid humors, incidental to the body; and act together as an erret in a warren, never resting until every venue of the human frame is thoroughly cleared, and cleansed of its impurities.

The Vegetable Clearing medicines are of great assistance to patients and facilitate the evacuation of bad humors; they soften cleanse, and detach the acrimonious phlegm are cooling and allay the thirst. One, two or three powders may be taken throughogh

the day mixed in half a tumbler of water. The pills are sold in packets of 12 & 23 dollars, and 50 cent boxes—the two former consist of three boxes, viz: one box of No. 1 and two boxes of No. 2—the latter, one larger box with a division; the powders are in a separate box at 37 1/2 cents each.

In consequence of the repeated solicitations of the agents, and for the convenience of the public in general, boxes of 50 cents and 25 cents each can now be had of all the Agents.

MORRISON'S, The Family Advertiser of the British College of Health, 5d Edition price 2/7; and PRACTICE PROOFS of the Hygienic System of Physiology, including the 'Origin of Life,' 'Treatise on Small Pox,' 'Letter on Cholera Morbus,' and many esteemed cures effected in this country, as well as in Great Britain, 6th Edition price 3/7 1/2 cents.

The Hygienic Medicines are all imported into this country at a great expense, notwithstanding which they are sold at the same price as in England. They have been six years before the American public; their pre-eminence success in the relief of the afflicted is unshaken and can testify.

CAUTION.—In consequence of the high estimation in which Morrison's Pills are held by the public, it has induced an innumerable host of unprincipled counterfeiters to attempt imitations, under deceptive terms to delude the unwary, and foist their nostrums for the Genuine Hygienic Medicines; in consequence of which the Agent has taken the precautionary measure of having an extra Yellow Label fixed on each Package, signed by the Agent of each State or District; and by their Sub-Agents, in every country; the imitation of which will subject the forger to the severest punishment the Law can inflict; and it is farther to be noticed, that none of the above Medicines can be obtained in any Drug Store throughout the Union; the Drug Stores being the principal source through which the Counterfeiters and their spurious articles.

Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No. 34 South seventh street three doors below Market street, Philadelphia—and at No. 10 North Street Baltimore, near the Post Office, where the Genuine Medicine may always be obtained. The above Pills are for sale by John Ivory, Merchant, Summit Cambric county, Va. John Bouslaugh, Merchant, Hollidaysburg Hunt. county.

John Redman, Post Master, Frankstown. Henry Neff, Merchant, Alexandria. James Emis, of Ennisville, J. & B. Miller, Merchants, Huntingdon. Jan. 10, 1838.

AGRICULTURAL.

BOOK FARMING.—Show me a thrifty, practical and experimental farmer, and I will show you a man who reads works on Agriculture, or who borrows his hints from a neighbor that takes an agricultural paper.

Show me a farmer whose fences are going to decay—whose half-starved cattle are strolling over a brush field—and I will show you a man, who, if he is not a retrogade, takes too little interest in agriculture to patronize an agricultural paper.

CULTIVATE—CULTIVATE.—During the past year the attention of the community has been greatly diverted from the tillage of the earth. During the year produce became remarkably high, and even now prices are by no means so moderate as to render the labors of the farmer or gardener of light account. It is seldom indeed that market produce does not command a
