Them until they are totally experied from Florida. There are other motives which would urge the government to pursue this course towards the Seminoles. The United States have fulfilled in good faith all their treaty stipulations with the Indian tribes, and have in every other instance, insisted upon a like performance of their obliga-tions. To relax from this salutary rule because the Seminoles have maintained themeelves so long in the Territory they lad relinquished and in defiance of theirr frequent and solemn engagements, still continue to wage a ruthless war against the United States, would not only evince a want of consistency on our part, but, be the United States, would not only evince a want of consistency on our part, but, be of evil example in our intercourse with other tribes. Experience has shown that but little is to be gained by the march of armies through a country so intersected with inaccessable swamps and marshes, and which from the real character of the climate, must be abandoned at the end of the winter. I recommend, therefore, to your attention. the plan submitted by the portion of the Territory freed from the Indians, and the more efficient protection of the people of Florida from their inhu-man wartare.
