We have received from the author, an ddress delivered by him before the Phil-mathean society of the University of Pennsylvania upon "the origin of our Revolutionary Union, the recorded and traditionary history of the acts, and influ-ences which led to the convocation of the first conventional Congress." We have read it with great care and interest, and would earnestly commend its perusal and valuable advice to every young American. It bespeaks the deep research, and patriotism of its author, as well as the rich culture of a mind naturally luxuriant with intellectual worth. In a few short pages all the numerous usurpation of the mother country, and the patient forbear-ance, yet firm unyielding determination of the oppress colonists are related, interspersed, with many anecdotes, new at least to us, illustrative of the general character, and conduct of the seperate lonies.

The committee of the society requested copy of the address for publication. The
