

Editorial Summary.

Col. Wolbert of Philadelphia, has a full blooded Durham Cow, which gave 194 quarts of milk in one week, from which there were 14 1/2 lbs. of butter manu- factured. Mr. James Gowen has a cow that gave 108 quarts in a week, she was milked three times a day.

They have got to propelling ships now by means of screws acting upon the water; a letter from London says one arrived at Portsmouth, beating a steamer.

Mississippi still continues under the government of Lynch law. Property has lost its protection and value; credit is prostrate, and life insecure. What all their troubles are to end with cannot be imagined. The people should be careful how they give countenance to the outrageous violations of law which have characterized many of the popular mobs.— They are but destruction of law in embryo, and without law, liberty is but a name, and seen only to the freedom with which violence is committed. Let the people of this State be warned by the condition of Mississippi. Might has become right—and the strength to take is evidence of the right to keep whatever can be obtained.

SAFE BUSINESS.—We learn from our exchange papers that one of that distinguished association of brothers, known as the committee of safety, has been safely lodged in the penitentiary for stealing a shirt. He was one of the associates of senator Miller of Adams;—and the committee should have made a shift so that the poor d—l would not show off his taking manners until his associates were forgotten.

Wm. Penn gave the following advice to young persons. "Never marry but for love—but see thou love what is lovely.— We give it place for the benefit of such as are thinking of obtaining a companion to travel life's thorny path.

A Justice of the Peace in Nantucket, states that upon the examination of his docket, he is satisfied that at least 90 out of 100 of the criminals brought before him were given to intemperance.

A prosecution has been instituted against Jacob Ridgeway, one of the richest men in our country, and three young Dyots, for a conspiracy in the operations of the Dr. Dyott bank.

The citizens of Germantown held a meeting complimentary to Dr. Espy, the lecturer upon the theory of storms.— Prentice says that the Dr. was so pleased with their doings that he has authorized them to draw on him for a tornado, thunder storm, hail storm or whirlwind; and the draft shall be answered at sight.

A laughable verdict is said to be on record in Cattaraugus Co. N. Y. Three young men were prosecuted for shooting and mortally wounding a dog. The verdict is written "All three guilty, plaintiff's damages six pence, and each of the defendants to have another shot at the dog."

Pennsylvania Legislature.

On Thursday June 6th, in the Senate, the committee on the subject reported, that a majority for David R. Porter at the last election was 7,331, and for the amendments, 3,552. Some debate was had on the minority report relative to Miller's speech. A resolution was offered inquiring of the Governor, whether the loan authorized for the Gettysburg rail road was taken,—if not, why? In the House another money borrowing bill was passed. The remainder of the day was consumed in preliminary matters.

On Friday, in the Senate, the election bill consumed their time. In the House, a resolution was passed relative to the payment of State interest in specie. The bill for the election of prothonotaries, came up from the Senate and was postponed until Monday. The bill for electing Justices of the peace came up from the Senate—the House disagreed with the Senate on the subject of making Justices give bail.

On Saturday the Senate continued the discussion on the election bill. Nothing was done in the House.

On Monday, the Senate received a message from the Governor, relative to the Gettysburg rail road loan, informing the Senate that it was none of their business whether the loan was taken or not; and a motion was made that it be not placed in the journal. After some debate the motion was withdrawn. The

resolution for adjournment came up, and was amended so as to adjourn on the 25th inst. and passed. In the House, a message was read from the Governor, urging the passage of an appropriation bill. The resolution relative to the adjournment, came up from the Senate, and was agreed to. The bill for electing Justices, was again returned from the Senate—the body still adhering to their amendment, informing the House that they had appointed a committee of conference—the house insisted and appointed a committee to confer with them. The bill incorporating the Huntingdon and Hollidaysburg rail road passed second reading.

On Tuesday, a committee reported in favor of the payment of the money borrowed to carry on the repairs on the canal last summer. A resolution was offered by Mr. Pearson, stating that the message relative to the Gettysburg rail road, was "indecorous, unbecoming, and uncalled for." The general election bill passed second and final reading. In the House, the Huntingdon and Hollidaysburg rail road bill passed final reading—yeas 34, nays 57.

NOTICE.

THE undersigned surviving executors of the late John Savage Esq., of the city of Philadelphia, hereby notify all persons who are claimants or holders of claims on Mr. Savage's estate, arising out of business or transactions, in Huntingdon and Bedford counties, in any way connected with Mr. George Thompson, or his alleged agency in that quarter, that they have appointed Edward E. Law Esq. Walnut street above Sixth street, Philadelphia, to receive and examine the same with reference, if justly due, to their speedy settlement.

In giving this public notice, the undersigned feel it their duty to state, that Mr. Thompson has at various times been called on, for a "regularly vouched account,"—and in consequence of his failing to comply with this reasonable request, he was desired more than a year ago, "to report the amount of debts, to whom; and when payable, the period at which they were contracted, and for what purpose, with such other statements as were best calculated to make the undersigned fully acquainted with the business that had been transacted at the Forge and Furnace—in separate lists—the whole to be duly certified by his signature."

These requisitions remained unanswered; Mr. Thompson withholds his accounts for the period prior, as well as subsequent to Mr. Savage's death, whereby the undersigned are deprived of the means of facilitating the final adjustment of his important dependencies in the West.— They have therefore no alternative but the public notice, which is hereby given, that all those who are directly or indirectly interested, will forward or present their accounts to Edward E. Law Esq., to be disposed of in manner set forth in the present advertisement.

Of this property, there are 95 acres cleared and under excellent fence; 70 acres of which are level or near level, and mixed with timothy. The wood land is of the best quality of timber. The stream of water above mentioned runs across one corner. This property is adjoining lands of Alexander Dysart Terms of sale made known on the ground. GEORGE RATHFON.

The article published below, concerning the new and popular doctrine advanced by the illustrious Goelicke of Germany, cannot fail of exciting a deep and thrilling interest throughout our country. [Translated from the German.] LOUIS OFFON GOELICKE, OF GERMANY, THE GREATEST OF HUMAN BENEFACTORS.

Citizens of North and South America.

To LOUIS OFFON GOELICKE, M. D., of Germany, [Europe] belongs the imperishable honor of adding a new and precious doctrine to the Sciences of Medicine—a doctrine which, though vehemently opposed by many of the faculty, (of which he is a valuable member,) he proves to be as well founded in truth as any doctrine of itoly Writ—a doctrine upon the variety of which are suspended the lives of millions of our race, and which he boldly challenges his opposers to refute, viz: Consumption is a disease always occasioned by a disordered state of Vis Vitæ (or life principle) of the human body: it is actually taking in the system for years before there is the least complaint of the Lungs—and which may be as certainly thought not so quickly, cured as a common cold or a simple headache. An invaluable precious doctrine this, as it imparts an important lesson to the apparently health of both sexes, teaching them that this insidious foe may be an unobserved inmate of their "clayey houses" even while they imagine themselves secure from its attacks, teaching them that the great secret in the art of preserving health is to pluck out the disease while in the blade, and not wait till the full grown ear.

This illustrious benefactor of man is also entitled to your unfeigned gratitude, and the gratitude of a world, for the invention of his matchless sanative,—whose healing fiat may justly claim for it such a title, since it has so signally triumphed over our great common enemy consumption, both in the first and last stages,—a medicine which has thoroughly filled the vacuum in the Meteria Medica, and thereby proved itself the Conqueror of Physicians—a medicine, for which all mankind will have abundant cause to bless the beneficent hand of a kind Providence,—a medicine, whose wondrous virtues have been so gloriously portrayed even by some of our clergy, in their pastoral visits to the sick chamber; by which means they often become the happy instruments of changing despondency into hope, sickness into health, and sadness of friends into joyfulness.

GOELICKE'S MATCHLESS SANATIVE,

medicine of more value to man than the vast mines of Austria, or even the united treasures of our globe.—a medicine, which is obtained equally from the vegetable, animal and mineral kingdoms, and thus possesses a three fold power,—a medicine, which though designed as a remedy for consumption solely, is possessed of a mysterious influence over many diseases of

the human system,—a medicine, which begins to be valued by Physicians, who are daily witnessing its astonishing cures of many whom they had resigned to the grasp of the Insatiable Grave.

Dose of the Sanative, for adults, one drop for children a half drop; and for infants, a quarter drop; the directions explaining the manner of taking a half or a quarter drop.

Price.—Three and one third six dollars* (\$3.50) per HALF OUNCE.

*A German coin, value 75 cents.

A certificate from three members of the MEDICAL PROFESSION in Germany, in Europe.

We the undersigned, practitioners of medicine in Germany are well aware that, by our course, we may forfeit the friendship of some of the faculty, but not of its benevolent members, who are influenced by selfish motives. Though we shall refrain from an expression of our opinion, either of the soundness or unsoundness of Dr. Goelicke's new doctrine, we are happy to say that we deem his Sanative too valuable not to be generally known—for what our eyes behold and our ears hear, we must believe.

We hereby state, that when Dr. Louis Offon Goelicke first came before the German public, as the pretended discoverer of a new doctrine and a new medicine, we held him in the highest contempt, believing and openly pronouncing him to be a base impostor and the prince of quacks. But, on hearing so much said about the Sanative, against it and for it, we were induced, from motives of curiosity merely, to make trial of its reputed virtues, upon a number of our most hopeless patients; and we now deem it our bounden duty (even at the expense of our self interest) publicly to acknowledge its efficacy in curing not only consumption, but other fearful maladies, which we have heretofore believed to be incurable. Our contempt for the discoverer of this medicine was at once swallowed up in our utter astonishment at these unexpected results; and, as amends for our abuse of him, we do frankly confess to the world, that we believe him a philanthropist who does honor to the profession, and to our country, which gave him birth.

The recent adoption of this medicine into some of our European hospitals is a sufficient guaranty that it performs all its promises: It need not our testimony, for wherever it is used it is its own best witness.

HERMAN ETMULLER, M. D. WALTER VAN GAULT, M. D. ADOLPHUS WERNER, M. D.

Germany, December 10, 1836. The above precious medicine (the original discovery of Dr. LOUIS O. GOELICKE, of Germany,) is for sale, wholesale and retail, by,
