

tained by the people—that they had said that the "dog keepers" were patriots—and that the mob of last winter was but a meeting of freemen. But it finally turns out that Dauphin has ousted the partisan Sheriff and Commissioner, and put honest Anti-masons in their place; and therefore the decision was on the other side. They have now said that they had rather have a jury empanelled by a whole board of Anti-masons, than to allow any of the Loco Focos to participate. They have told Judge Porter that they know who make the best jurors as well as he does.

Dauphin is erect; Davy's dog keepers, and Jimmy's Jacobins might get a hearing, yet before a court of their country, and they might get their dues.

The "Holidaysburg Standard" says, that "mortification" has taken place, since their last defeat. We felt confident that where there was so much corruption, that either supperation or mortification must soon follow. It says, further, that he anticipated an easy victory, until the occurrences at August court. Occurrences, ah, indeed. The "Statute of Repose" was an occurrence of that week; the verdict of "not guilty," was rendered for a man who said your Governor had no spark of moral honor in him. That was an occurrence of the same week. Which of these occurrences was it that made you give it up?

The truth of the whole matter was this. The Loco Focos, with Jo. Ritter at their head, calculated that they could gather up enough of the off scourings of creation, to drive in hordes to the grounds where he or some like spirit would stand sponsor for their ten days' residence, and they could swear the rest. Ritter would of course be careful to take none of those kind of cowards, that will not swear through a stone fence; and by this means they anticipated an easy victory. But we rejoice that their cohorts were imported in vain—that they were disappointed—and that the occurrences which took place at the August court, were enough to discourage any honest man from supporting that party.

Suspension of Specie Payments.

The Banks

Of Philadelphia suspended the payment of specie for their notes, on Wednesday of last week.

Unexpected as this announcement may be to many, to us it was not. We have long looked upon it as approaching, & sure to arrive soon. We have for seven or eight years been impressed with the belief that without some regulating power which carries with it the credit of the nation, the limited credit of the smaller banks could never secure us a safe and unwavering currency.

Seven or eight years since, and Demagogues raised the war cry against the U. S. Bank. Unceasing and unyielding has been the strife. Caught with the empty bubble of a "specie currency"—the people sustained the brawlers against the very vitality of the currency, confidence and credit. From that to the present has the currency of our country become more and more deranged—less and less secure.

One suspension took place. The same paltry demagogues charged that suspension to Joseph Ritter, and the party then in power; and even at this time do they say, "that the first suspension was without cause, but that this one is imperitively necessary"—and with such folly are the honest people deluded.

But let us not recriminate. Worse by far is the present, than the first suspension. Then, we might anticipate a resumption at some not very far distant date; now, the prospect is gloomy indeed. None can pretend to see the result. It may terminate in three months, and is just as likely to continue for as many years. The balance of trade is against us, and that balance, enormous as it may be, must be paid in specie, when the U. S. Bank as it now is, can do nothing toward keeping up exchanges, as its paper is not current abroad. In truth it is only a State Bank, like the Lewistown or Exchange, and carries with it only so much more credit, as its capital is above theirs.

Shall we now ask in the same spirit, whether Porter is the cause of this suspension, as the others charged upon Ritter at the former one? We said then, that any one who attempted to injure the credit of the country, and thus injure the people was an enemy to his country, and we say so now. Let every citizen bear and forbear, or they may rest assured that the "end is not yet."

The present Governor has given directions to the Attorney General, and he to his deputies, to institute immediate prosecution against all persons, or incorporate bodies that issue notes less than \$5.—We ask! what is to be done? How are the people to get along without something to make change with? How are the poor to get along? It is the purchaser's duty to make the change for payment—and we leave it for those who now have the power, to divine means to do the small trading of the country. When the former administration had the power, all the disarrangement in the currency was laid to it. Are not the same arguments used then of the same force to prove whose fault it is now? As we thought that the fault was the war upon the currency by the National Government, so we still think, and we only rejoice that we have a State administration of the same kind, to carry the people through the difficulties. We trust he will not bear the stigma of a ship-plaster Governor.

LARGE PUMPKIN.—We have seen numerous articles stating what wonderful large pumpkins had been raised in various parts of the state. Satisfied that our country is behind in nothing, (particularly politics,) we have concluded to record a yield of these excellent articles, which has been had in our town. Mr. George Griffin raised in his garden upon one single vine, six pumpkins, the total weight of which, amounted to 557. Who can beat this from one vine?

CITIZENS of Pennsylvania, you have now before you DR. PETER'S CELEBRATED VEGETABLE PILLS.

These Pills are no longer among those of doubtful utility. They have passed away from the hundreds that are daily launched upon the tide of experiment, and now stand before the public as high in reputation, and as extensively employed in all parts of the U. States, the Canadas, Texas, Mexico, and the West Indies, as any medicine that has ever been prepared for the relief of suffering man. They have been introduced wherever it has been found possible to carry them; and there are but few towns that do not contain some remarkable evidences of their good effects. The certificates that have been presented to the proprietor exceeds twenty thousand upwards of five hundred of which are from regular practicing physicians, who

are the most competent judges of their merits.

Of ten have the cures performed by this medicine been the subject of editorial comment, in various newspapers and journals; and it may with truth be asserted, that no medicine of like kind has ever received testimonials of greater value than are attached to this.

They are in general use as a family medicine and there are thousands of families who declare they are never satisfied unless they have a supply always on hand.

They have no rival in curing and preventing Bilious Fevers, Fever and Ague, Dyspepsia, Liver Complaints, Sick Headache, Jaundice, Asthma, Dropsy, Rheumatism, Enlargement of the Spleen, Piles, Cholera, Females Obstructions, Heartburn, Furred Tongue, Nausea, Distension of the Stomach and Bowels, Incipient Diarrhoea, Flatulence, Habitual Constiveness, Loss of Appetite, Blotched or Sallow Complexion and in cases of torpor of the bowels, where a cathartic or aperient is needed. They are exceedingly mild in their operation, producing neither nausea, griping nor

Extraction of a letter written by Dr. Francis Bogart, of Providence, R. I. Dec. 17, 1828.—Peter's pills are an excellent aperient and cathartic medicine, those effects being produced by the differences of the quantity taken, and are decided, superior to Lee's, Brandreth's or Morrison's Pills.

Extraction of a letter by Dr. Hopson of Bangor, Me. Jan. 9, 1839. They are a peculiarly mild, yet efficient purgative medicine, and produce little, of any griping or nausea. I have prescribed them with much success in sick headache and slight bilious fever.

Extraction of a letter by Dr. Joseph Williams of Burlington, Vt. July 9, 1837.—I cordially recommend Peter's Pills as a mild effective, and in no case dangerous, family medicine. They are peculiarly inconstiveness and all the usual diseases of the digestive organs.

Extraction of a letter from Dr. Edw. Smith of Montreal, U. C. Sept. 27, 1835.—I never knew a single patent medicine that I could put the least confidence in but Dr. Peter's Vegetable Pills, which are really a valuable discovery. I have no hesitation in having it known that I use them extensively in my practice, for all complaints, (and they are not a few) which have their source in the impurity of the blood.

Extraction of a letter from Dr. Dye of Quebec, L. C., March 6, 1837. For bilious fevers, sick head-ache, torpidity of the bowels, and enlargement of the spleen Dr. Peter's Pills are an excellent medicine.

Extraction of a letter from Dr. Gurney N Orleans, La., Oct. 9, 1837; I have received much assistance in my practice; especially in jaundice and yellow fever, from the use of Peter's Pills. I presume that, on an average, I prescribe 100 boxes in a month.

Extraction of a letter from Dr. Prichard of Hudson N. Y. June 3, 1836; I was aware that Dr. Peter's was one of the best chemists in the U. States, and felt assured that he would some day (from his intimate knowledge of the properties of herbs and drugs) produce an efficient medicine, and I must acknowledge that his Vegetable Pills fully respond to my expectations. They are indeed a superior medicine, and reflect credit alike upon the Chemist, the Physician, and Philosopher.

Extraction of a letter from Dr. Wains of Cincinnati, Feb. 2, 1838; your Pills are the mildest in their operations, and yet most powerful in their effect, of any that I have. There action on the chyle, and hence on the impurities of the blood is evidently very surprising.

Extraction of a letter from Dr. Scott of Baltimore, Dec. 17, 1836; I am in the daily habit of prescribing them (Peter's Pills) and they in nearly all cases answer my purposes. I have directed other medicines, some of them very good ones, in their favor.

Charlotte, N.C., June 1, 1837.

Dear Sir: I have frequent use of your Pills in the incipient stage of bilious fever and obstinate constipation of the bowels, also, in the enlargement of the spleen, chronic disease of the liver, sick head-ache general debility, and in all cases have found them to be very effective. J. D. Boyd Mecklenburg Co. Va. Feb. 7, 1837.

Having used Dr. Peter's Pills in my practice for the last 15 months, I take pleasure in giving my testimony of their good effects of cases of dyspepsia, sick headache bilious fevers, and other diseases, produced by inactivity of the liver. They are a safe and mild aperient, being the best article of the kind I ever used.
