LIVER COMPLAINT.

This disease is discovered by a fixed obtuse pain and weight in the right side under the short ribs; attended with heat, uneasiness about the pit of the stomach;—there is in the right side also a distension—the patient loses his appetite and becomes sick and trouble with vomiting. The tengue becomes rough and black, countenance changes to a pile or citron color or yellow, like those tafficted with jaudice—difficulty of breathing, disturbed rest, attended with dry caugh, difficulty of laying on the left side—the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's compound tonic strengthening and German aperient pills, if taken at the commencement of this disease, will check it, and by continuing the use of the medicine a few weeks, a perfect cure cure will be performed. Thou and so at testify to this fact.

Certificates of many persons may daily became of the efficacy of this invaluable medicine, by applying at the Medicai Office, No 29 Morth Eight street, Philadelphia.

Also, at the Store of Jacob Miller, Hun.

obofth Eight street, Philadelphia.
Also, at the Store of Jacob Miller, Huo.

DYSPEPSIA AND HYPOCHON

DRIAISM.
