The following which we extract from the Philadelphia American Sentinel, one of the oldest party papers in the state is in a similar tone. The Sentinel wishes to anticipate the disappointment of the party, by proclaiming before hand that they will be unable even to rally a nominating Convention. We regard this a sign of the times which cannot be mistaken. For the word "democrat" in this extract the reader will please substitute locafoco, as the Van Burenites yet labor under the sin gular infatuation which leads them to call themselves democrats, when in fact there is no democracy in their acts whatever.

From the American Sentinel.

DEMOCRATIC NATIONAL CON-

DEMOCRATIC NATIONAL CON TION.

TION.

We are strongly inclined to believe, from all the information within our reach, that the Democratic Convention proposed to be held in Baltimore in May, will prove a failure. The tollowing ten States it is understood, have declined and will decline to send delegates to the Convention, viz: Virginia, Massachusetts, South Carolina, Georgia, Kentucky, Tennessee, Louisiana, Illinous, Alabama, Missouri, It is said, that BUT EIGHT States have yet chosen delegates to the Convention, and it is not certain that they even they will be fully represented. In most of the states just named, the democrats are UNFAVORABLE to the election of Col Johnson as Vice President and in some of them he will not be supported, even if nominated by a National Convention. If none should be held, HE WILL NOT HAVE THE SLIGHTETS CHANCE OF SUCCESS. There is evidently a strong disposition to give him the goalwigh and hence CESS. There is evidently a strong dis-position to give him the go-by; and hence in a great measure, proceeds the unwil-lingness, on the part of the democrats of several of the states to go into a conven-tion.

### Porter Reform.

The wretched management of the Philadelphia and Columbia Rail Road is known to eyery one. The report of the Committee of the House of Representatives, a majority of whom were of the same political party, and acknowledged that they went as far as they could, to screen the bad management of the road, in this respect, is conclusive in showing that if the same mismadagement had taken place under the late administration, the State would have echeed with denunciations—while now we hear not a word from the professed friends of reform. Complaints are now only heard from the transporters and travellers on the road—these see and feel the vexation, delay and danger, they see the road lined by a host idle, useless officers, feeding upon the people, and they hesitate not to cry aloud for reform. But their voice is disregarded. The necessity of boisterous partizans on the public treasury is paramount to the interests of the Commonwealth That our readers may form some idea of the management on this road, we will state a few facts from the report of the committee.

In 1838 there was one Supervisor on this road. In 1839 there were filled.

several common school districts of Hundred Franking a certain tract of the directors in compliance with the componention.

In 1833 there were twelve same compensation.

In 1833 the whole cost of repairs on the road for the year ending Nov. 1. was \$25,974.54.

In 1839, from February 1st to Nov. 1. the cost of the repairs of the repairs of the road for the year ending Nov. 1. was \$25,974.54.

In 1839, from February 1st to Nov. 1. the cost of the repairs of the repairs of the road was \$39,936.28 showing an increase in mine months of \$14,000, or more than 11 ALF of the whole cost of repairs in 1835 What think you of such facts, Farmers and tax payers? How do you like; to have the tax gatherer knucking at your doors and your pockets, to support such prodigality and extravagance? Or the system of barrowing money to pay interest, and of increasing the state debt to evard political partizans? In addition to the above it is proper ta remark that from the report of Mr Nill, it is evident, that the debt now due and unpaid on the Philadelpha and Columbia rail road, are from sixty to eighty thousand dollars? 1. Did not these facts present a beautiful and consoling spectacle for the contemplation of a tax threatened and a tax ridden people, whose products are without market or coming down to the hard money standard or a statistic state of the contemplation of a tax threatened and a tax ridden people, whose products are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the back are without market or coming down to the lard money standard market or coming down to the lard money standard market or coming down to the complete of the comple
