This syrup is highly beneficial in all peets ri which the lungs do not perform their proper office from want of due nervous energy: such as asthmas, pulmonary consumption, recent or chronic coughs, hoarse ness, whooping cough, wheezing and difficulty of breathing, croup and spitting of blood, 4c. How many sufferers do we daily behold approaching to an untimely grave, wrested in the bloom of youth from their dear relatives and friends, afflicted with that common and destructive ravager, called consumption, which soon wasts the miserable sufferer until they become beyond the power of human skill; if such sufferers would cally make a trial of Dr. Swayne's invaluable medicine, they would should help with that common and destructive ravager, called consumption, which soon wasts the miserable sufferer until they become beyond the power of human skill; if such sufferers would cally make a trial of Dr. Swayne's invaluable medicine, they would should find themselves benefitted; than by guiphing the various ineffective certain remedies of which our newspapers daily abound. This syrup immediately begins to heal the ulcerated lungs, stopping profuse night swatas, mittigating the distressing to shortness of breath and pain in the chest, which harrass the sufferer on the slightest exercise, and finally the heactief flash in the pallid and maciated cheek will soon begin to vanish, and the sufferer will here peecive himself snatched from a premature grave, into the enjoyment again of comfortable health.

Coughs and Colds.

How many sufferers do we daily behold afflicted with that common and distressing disease! Do we not find that almost every persy no friend we meet with complains of a bad COLD or a distressing COUGH? We alse find in assemblies of all kinds that there is a continual coughing, by which we perceive that there is one half of the human family afflicted with that troublesome disease. It those sufferers would only make a trial of Dr Swayne's Syrup or wild cherry they would soon find themselves relieved. they would soon find themselves relieved, and by continuing the use of the same for a few days, it will effect a permanent cure. Hundreds can testify to this fact, as in the short space of two months, upwards of five hundred bottles have been sold.
