Vermifuge Syrup. This preparation is confidently recom-medy for expelling and destroying worms. It has been extensively used for some time and has never failed to give relief where worms have been present; and in many cases where all other medicines have fail-ed, this medicine has given immediate re-lief. It is preferable to all other medi-cines, on account of the mildness of its operation, being easy to administer, re-quiring but few and small doess, and at-tended by no bad consequences. This highly valuable medicine is a safe and sure remedy for expelling all worms, to which many of the most respectable certificates can be obtained. It is unnecessary to give any further detail of its goodness, as a fair trial will prove its efficacy.
