

HUNTINGDON FEMALE SEMINARY.

THIS Institution is now opened under the direction of Miss Levanti L. Phillips, whose recommendations are highly reputable. The number of Pupils already admitted is nearly as large as can be instructed conveniently by one teacher. The Institution is incorporated by act of the Legislature, and provision is made, in part, for payment of the salary of an teacher, or more if the number of pupils should be such as to require an assistant. It will be expected that applicants for admission are sufficiently acquainted with the rudiments of the English language, to enter on the study of Grammar, Geography, &c.; no others will be received.

The following branches, in addition to the common course of studies, will be taught in the Seminary, viz: the French language, Drawing, Mathematics, Chemistry, Botany, Astronomy, Rhetoric, History, Natural and Mental Philosophy.

The price of tuition for the present quarter is two dollars and fifty cents; the additional sum of fifty cents, to be paid by each pupil in advance, is required to defray incidental expenses. If any further sum should be wanted for that purpose due notice thereof will be given.—Application for admission must in all cases be made to the officers of the Board, who will submit the same to the Trustees of the Institution for examination and decision. It is desired that pupils enter at the commencement of a quarter, or as soon afterwards as practicable.

DR. JAYNE'S EXPECTORANT

We consider it a duty to call public attention to this admirable preparation for Pulmonary Diseases—Especially Coughs, Colds, Consumptions, Spitting blood, Asthma, Bronchial Affections, Hooping Cough, &c. It is used and very highly approved by persons of the first respectability, but we feel confident in saying that a trial of its efficacy will be its best recommendation.

DR. JONATHAN GOING, PRESIDENT OF THE GRANVILLE COLLEGE, Ohio (late of New York), in a letter to Dr. Jayne dated New York, December, 1836, says:—He was laboring under a severe cold, cough and hoarseness, and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using the Expectorant.

WORMS! WORMS!

VERMIFUGE SYRUP.

This preparation is confidently recommended to the public, as an effectual remedy for expelling and destroying worms. It has been extensively used for some time and has never failed to give relief where worms have been present; and in many cases where all other medicines have failed, this medicine has given immediate relief. It is preferable to all other medicines, on account of the mildness of its operation, being easy to administer, requiring but few and small doses, and attended by no bad consequences. This highly valuable medicine is a safe and sure remedy for expelling all worms, to which many of the most respectable certificates can be obtained. It is unnecessary to give any further detail of its goodness, as a fair trial will prove its efficacy.

Dr. Swayne's Compound Syrup of Prunus of Virginia or wild Cherry

This syrup is highly beneficial in all pectoral affections; also, in diseases of the chest in which the lungs do not perform their proper office from want of due nervous energy: such as asthma, pulmonary consumption, recent or chronic coughs, hoarseness, whooping cough, wheezing, and difficulty of breathing, croup and spitting of blood, &c. How many sufferers do we daily behold approaching to an untimely grave, wrested in the bloom of youth from their dear relatives and friends, afflicted with that common and destructive ravager, called consumption, which soon wastes the miserable sufferer until they become beyond the power of human skill; if such sufferers would only make a trial of Dr. Swayne's invaluable medicine, they would soon find themselves benefited; than by gulping the various ineffective certain remedies of which our newspapers daily abound. This syrup immediately begins to heal the ulcerated lungs, stopping profuse night sweats, mitigating the distressing cough at the same time inducing a healthy and natural expectoration, also relieving the shortness of breath and pain in the chest, which harass the sufferer on the slightest exercise, and finally the hectic flash in the pallid and emaciated cheek will soon begin to vanish, and the sufferer will here perceive himself snatched from a premature grave, into the enjoyment again of comfortable health.

For sale at Jacob Miller's store Hunt

TO THE PUBLIC.

THE public are hereby informed, that JACOB MILLER has been appointed agent for Huntingdon county, for the sale of Dr. Evans' Camomile and family aperient pills, where all those that need medicine, can be supplied as he intends always to have a supply on hand.

LIFE AND HEALTH.—Persons whose nerves have been injured by Calomel, or excessive grief, great loss of blood, the suppression of accustomed discharges or cutaneous, intemperate habits, or other causes which tend to relax and enervate the nervous system, will find a friend in such a comforter, in EVANS' CAMOMILE PILLS. Those afflicted with Epilepsy or Falling Sickness, Palsy, Serious Apoplexy, and organic affections of the heart, Nausea, Vomiting, pains in the side, breast, limbs, head, stomach or back, will find themselves immediately relieved, by using EVANS' CAMOMILE AND APERIENT PILLS.

Dr. EVANS does not pretend to say that his medicine will cure all diseases that flesh and blood are heirs to, but he does say that in all debilitated and impaired Constitutions, in Nervous diseases of all kinds, particularly of the DIGESTIVE ORGANS, and in Incipient Consumption, whether of the lungs or liver, they will cure. That dreadful disease, CONSUMPTION, might have been checked in its commencement, and disappointed its prey all over the land, if the first symptoms of Nervous Debility had been counteracted by the CAMOMILE FLOWERS, chemically prepared; together with many other diseases, where other remedies have proved fatal.

How many persons do we daily find tormented with that dreadful disease, SICK HEADACHE, if they would only make a trial of this invaluable medicine, they would perceive that life is a pleasure and not a source of misery and abhorrence. In conclusion I would warn nervous persons against the abstraction of BLOOD, either by leeches, cupping, or the employment of the lancet. This is a practice of delicate habits are almost equally improper. Those cases, but they seldom fail to prove highly injurious. Certificates of cures are daily received which afford sufficient testimony of the great efficacy of this invaluable medicine, in relieving afflicted mankind. The above medicine is for sale at Jacob Miller's store, Huntingdon.

THE GREATEST OF HUMANA BENEFACTORS.

Translated from the German. LOUIS OFFON GOELICKE, OF GERMANY.

CITIZENS OF NORTH AND SOUTH AMERICA,

To LOUIS OFFON GOELICKE, M. D., of Germany, [Europe] belongs the imperishable honor of adding a new and precious doctrine to the Sciences of Medicine—a doctrine which, though vehemently opposed by many of the faculty, (of which he is a valuable member,) he proves to be as well founded in truth as any doctrine of Holy Writ—a doctrine upon the variety of which are suspended the lives of millions of our race, and which he boldly challenges his opposers to refute, viz: Consumption is a disease always occasioned by a disordered state of Vis Vitæ (or life principle) of the human body: often secretly lurking in the system for years before there is the least complaint of the Lungs—and which may be as certainly though not so quickly, cured as a common cold or a simple headache. An invaluable precious doctrine this, as it imparts an important lesson to the apparently health of both sexes, teaching them that this insidious foe may be an unobserved inmate of their "clayey houses" even while they imagine themselves secure from its attacks, teaching them that the great secret in the art of preserving health is to pluck out the disease while in the bud, and not wait till the full grown ear.

This illustrious benefactor of man is also entitled to your unfeigned gratitude and the gratitude of a world, for the invention of his matchless sanative,—whose healing fiat may justly claim for it such a title, since it has so signally triumphed over medicine which has thoroughly filled the vacuum in the Materia Medica, and thereby proved itself the Conqueror of Physicians—a medicine for which all mankind will have abundant cause to bless the beneficent hand of a kind Providence,—a medicine, whose wondrous virtues have been so glowingly portrayed even by some of our clergy, in their pastoral visits to the sick chamber; by which means they often become the happy instruments of changing despondency into hope, sickness into health, and sadness of friends into joyfulness.

GOELICKE'S MATCHLESS SANATIVE,

medicine of more value to man than the vast mines of Austria, or even the united treasures of our globe,—a medicine, which is obtained equally from the vegetable, animal and mineral kingdoms, and thus possesses a three fold power,—a medicine, which though designed as a remedy for consumption solely, is possessed of a mysterious influence over many diseases of the human system,—a medicine, which begins to be valued by Physicians, who are daily witnessing its astonishing cure of many whom they had resigned to the grasp of the Inevitable Grave.

Dose: of the Sanative, for adults, or drop; for children a half drop; and infants, a quarter drop; the directions explaining the manner of taking a half or quarter drop.

Price.—Three and one third six dollars (\$2,50) per HALF Ounce.

*A German coin, value 75 cents.

A certificate from three members of the MEDICAL PROFESSION in Germany, in Europe.

We the undersigned, practitioners of medicine in Germany are well aware that, by our course, we may forfeit the friendship of some of the faculty, but not of its benevolent members, who are not influenced by selfish motives. Though we shall refrain from an expression of our opinion, either of the soundness or unsoundness of Dr. Goelicke's new doctrine, we are happy to say that we deem it a Sanative too valuable not to be generally known—for what our eyes behold and our ears hear, we must believe.

We hereby state, that when Dr. Louis Offon Goelicke first came before the German public, as the pretended discoverer of a new doctrine and a new medicine, we held him in the highest contempt, believing and openly pronouncing him to be a base impostor and the prince of quacks. But, on hearing so much said about the Sanative, against it and for it, we were induced, from motives of curiosity merely, to make trial of its reputed virtues, upon a number of our most hopeless patients; and we now deem it our bounden duty (even at the expense of our self-interest) publicly to acknowledge its efficacy in curing not only consumption, but other fearful maladies, which we heretofore believed to be incurable. O attempt for the discoverer of this medicine was at once swallowed up in our utter astonishment at these unexpected results; and, as amends for our abuse of him, we do frankly confess to the world, that

we believe him a philanthropist who does honor to the profession, and to our country, which gave him birth.

The recent adoption of this medicine into some of our European hospitals is a sufficient guaranty that it performs all its promises: It need not our testimony, for wherever it is used it is its own best witness.
