

They had not understood that the said sum of \$60,000 had been arranged with the State through its agents, the Canal Commissioners; and the strong probability is that if the Canal Commissioners had not entered into said arrangement with Dotterer & Co., the said bank could not have been revived, and the whole or the larger part of said money would have been lost to the State. The present Board of Directors is actively engaged in restoring the credit of said bank, and so soon as they are able they will pay to the State the said balance of \$14, 629 77; but at present, if said amount was instead upon it, it would cripple and very much injure the future prospects of said bank. The present board consists of Wm. Addams, Elijah Dechert, Henry Flannery Esq., John Beitenman, Esq., Joseph H. Spayd, Esq., and Henry Comrad.—Trusting that the foregoing explanation will prove satisfactory.

I subscribe myself,
Yours very respectfully,
ELIJAH DECHERT,
President.

CANAL COMMISSIONERS' ROOM,
HARRISBURG, March 6, 1841.

Hon. WM. A. CRABB,
Speaker of the House of Representatives.

SIR:—In pursuance of a resolution of the House of Representatives, passed the 22d inst. requesting the Canal Commissioners to communicate to the House "all the circumstances under which the sum of sixty thousand dollars was drawn from the Berks county Bank, and applied to the purchase of locomotive engines—stating whether said purchase and expenditure has been embraced or taken into account in any report made to the House, and also how the said sum of sixty thousand dollars was drawn from the amount lying to the credit of the Treasurer of the Board of Canal Commissioners in said bank," the Board beg leave respectfully to state that there must be some misapprehension on the part of the House of the facts relating to the subject. In the first place, the Canal Commissioners have never drawn the sum of sixty thousand dollars from the Berks County Bank, nor any part of it, nor have they in any way interfered with the duties of the Treasurer of the Board of Canal Commissioners, upon whose draft ALONE all money appropriated to the public works is drawn from the bank wherever it may be deposited.

In November last the Board received a communication from D. H. Dotterer & Co., of Reading, proposing to furnish such locomotives as might be required for the public service, at the usual price, and to receive in payment therefor the drafts of the Treasurer on the Berks county Bank, if the Government could not otherwise dispose of the funds deposited with that institution. By the first section of the Act of the 15th April, 1834, the Canal Commissioners are authorized, if they deem it expedient for the public interests, to procure such locomotive engines and tenders for the conveyance of passengers and merchandise, as may be necessary for doing the whole or any part of the transportation on the railroads belonging to the Commonwealth.

In pursuance of this authority the following proceedings were had by the Canal Commissioners on the 7th of November last.

Extract from the minutes of the Board "HARRISBURG, Saturday, Nov. 8, 1840."
"The President laid before the Board a communication from the State Treasurer, certifying that the Berks county bank still stands indebted to the Commonwealth on account of the late loan, nearly seven thousand dollars, which sum is not available by reason of the inability of said bank to meet its engagements; and also a communication from D. H. Dotterer & Co., proposing to furnish locomotive engines of the first class at the same price that similar engines can be procured in Philadelphia, and to receive in payment therefor drafts on the said Berks county bank, or the bills of said institution at par, at the option of the Government—together with letters from the Superintendent of motive power on the Pennsylvania railroad, stating that several engines were required to properly transact the business on the said railroad."

"Which were read and considered."
"Whereupon, on motion, it was Resolved, That the Superintendent of motive power on the Columbia and Philadelphia railroad be directed to enter into contract with D. H. Dotterer & Co. of Reading, for four new locomotive engines of the first class, with the necessary fixtures complete, conditioned for the payment of seven thousand five hundred dollars for each, in drafts on the Berks county Bank, or the bills of said institution at par, at the option of the Board of Canal Commissioners."

"Resolved, That the Superintendent of motive power on the Portage railroad be directed to enter into contract with D. H. Dotterer & Co., of Reading, for four new locomotive engines of the first class, with the necessary fixtures complete, conditioned for the payment of seven thousand five hundred dollars for each, in drafts on the Berks county bank, or in bills of the said institution at par, at the option of the Treasurer of the Board of Canal Commissioners."

The foregoing is the only action that the Canal Commissioners have had on this subject, by which it will at once be seen that they have done no more than enter into a contract for locomotives, in pursuance of the Act of Assembly—the con-

tractor binding himself to receive in payment at par, a part of the uncurrent funds lying in the Treasury, if the Commonwealth would not sooner dispose of them on terms equally advantageous.

This course was deemed a measure of prudence, inasmuch as it furnished additional security to the State for a portion of her funds, which at the time was deemed in jeopardy by the public as well as the officers of the Government. It could do no harm, because if those funds could be made available sooner, there was nothing in our action to prevent it, nor could there be, because we had no such authority.

The entire balance of the loan taken by the Berks county bank which was available during the past year, so far as this Board are informed on this subject, remains on deposit in that institution, subject as heretofore to the draft of the State Treasurer, who is ex officio Treasurer of the Board of Canal Commissioners. If it is not yet available, the fault is not chargeable upon us. The only tendency of our action upon the subject being to multiply the chances of bringing about that result.

I have the honor to be,
Very respectfully,
Your obt. serv't.
EDW. B. HUBLEY,
President.

THE PRINCIPLE OF PURGATION.—The great principle of purging in sickness is now one of the leading principles of the day. It is found much more convenient to take an occasional dose of the celebrated Brandreth's Vegetable Universal Pills and be always well, than to send for a doctor and be bled, blistered, and salivated—with the certainty that if you are not killed, you will be sure to have months of miserable weakness, and the only one who is benefited is your doctor.

The Brandreth's Vegetable Universal Pills require no skill in their administration; the printed direction only has to be observed, and it describes the just proportion of the dose to the magnitude of the disease to be cured.

They may be taken at any time the body requires medicine, either before or after meals, when out at home, without any inconvenience being experienced.—And a certainty that no malignant disease can injure while they are used. Thus establishing the fact that we are only to use those remedies which purify the blood, to be free from all diseases, it being now a well known fact, in the brain or meanest member, whether it be an outward ulcer or an inward abscess, are all, though arising from many causes, reducible to one grand effect, namely, impurity of blood.

Purchase them in HUNTINGDON, of W. M. STEWART, and only in the county of agents published in another part of this paper. Remember every agent has a certificate of agency, dated within the last twelve months. If of an earlier date do not purchase.

The amount of tax every district must levy to entitle itself to its share of the State appropriation, is a sum equal to at least 60 cents for every taxable inhabitant in the district, according to the last triennial enumeration made in the spring of 1839. A list of taxables in each district is hereto appended.

Districts that have already accepted the Common School system, and received their share of the appropriation for former years will, on levying the proper amount of tax, be entitled under the existing laws to receive for the School year 1842, which commences on the first Monday of next June, one dollar for every taxable.

Districts which have not received any part of the appropriation of former years, but which accept the system for the first time, at the annual election in March next, and levy the proper amount of tax will under the existing laws receive \$4.50 or more taxable in the district in 1835, and \$3.60 for every taxable in 1839, according to the above list. These sums, by a resolution passed April 13th, 1840, will remain in the State Treasury for the use of nonaccepting districts, until the first of November, 2841, and no longer.

A CURE AND PREVENTIVE OF DISEASE.
Brandreth's Vegetable Universal Pills are no less a cure than a preventive of diseases. If we feel dull, pain in the head, back, or side, weary on the least exertion, then we ought to take a dose of these Pills. This will always have a good effect; because it is impossible for pain to be in the body without the presence of those humors which produce it, it is only by them being forced out by purging that health can be restored.

It is at all times easier to prevent than to cure disease; because by taking a preventive course we do not debilitate the natural functions of the body, but rather strengthen and assist them; the peculiar action of Brandreth's Vegetable Universal Pills is to cleanse blood from all impurities, remove every cause of pain or weakness, and restore the body to perfect health and vigor.
