Huntingdon Academy. An examination of the pupils, closing ith exercises of reading and speaking, An examination of the pupils, closing with exercises of reading and speaking, original, and select pieces, took piace on Friday last. The performance was cred-itable to the teacher, Mr. Orr, and to the pupils generally. It was evident, how-ever, that some of them had been more at-

ever, that some of them had been more at-tentive and studious than others. The audience, which was respectable, appear-ed much pleased with the exercises. The terms of tuition are so low, none exceeding four dollars per quarter, some of the branches less; it is strange that more do not avail themselves of the op-portunity of acquiring an education at so cheap a rate. The next quarter will commence on Monday next, 10th inst. A SPECTATOR.

A CURE AND FREVENTITIVE OF DIS-EASE.—Brandreth's Universal Vegetable Pills are no less a cure than a preventitive of diseases. When we feel dull, pain in the head, back, or side, weary on the least exertion, it is then we ought to take a dose of these Pills. This will always have a good effect; because it is impossi-ble for pain to be in the body without the presence of those humors which produce it—it is only by their being forced out by purging that health can be restored. It is at all time casizer to prevent than to cure disease—because by taking a pie-ventative course we do not debilitate the natural faculties of the body, but rather assist and stiengthen them.
