MOFFAT'S LIFE MEDICINES.

THE PHOENIX BITTERS are so called, because they possess the power of restoring the expiring embers of health, to a glowing vigor throughout the constitution, as the Phoenix is said to be restored to life from the ashes of its own dissolution.

The proprietor rejoices in the opportunity afforded by the universal diffusion of the press, for placing his VEGETABLE LIFE MEDICINES within the knowledge and reach of every individual in the community.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure and healthy bile, instead of the stale and acid kind.—Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper and Anxiety, Languor and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

It is the desire of the Commissioner to bring to a speedy and final settlement, the estate of Peter Bayton so far as the Commonwealth is interested; he hopes that all interested will avail themselves of the present offer; should it be neglected, the claims of the Commonwealth will be sold, and peremptory prevent those claiming from having an opportunity to compromise on as easy terms as at present.

ADVISE TO FEMALES.—Females who value good health should never be without the Life Medicines, as they purify the blood, remove obstructions, and give the skin a beautiful, clear, healthy, and blooming appearance.

TO PARENTS AND OTHERS.—Persons of a plethoric habit, who are subject to fits, headache, giddiness, dimness of sight, or drowsiness, from too great a flow of blood to the head, should take it frequently.

TO ELDERLY PERSONS.—Many healthy aged individuals, who know the value of Moffat's Life Medicines, make it a rule to take them two or three times a week, by which they remove the causes that produce disease, preserve their health, and keep off the infirmities of age.

FACTS FOR MOTHERS & NURSES.—It is a fact established by the annual bills of mortality, that one half of the children born are cut off before attaining seven years of age, and the fruitful source of this mortality is found to exist in that foul state of the stomach and bowels which produces the generation of Worms.
