Costiveness, by cleansing the whole length of the intestues with a solvent process, and without violence. It is well known to hundreds in this city, that the originator of the see invaluable Pilis was himself afflicted with this complaint for up vards of thirty-fiveyears, and that he tried in vain every remedy prescribed within the compass of the Materia Medicines strictly accordin

Medica. He however, at length, tried the medicine which he now offers to the public and he was cured in a very short time. All that Mr. Moffat requires of his patients is to be particular in taking the Life Medicines strictly according to the directi's ADVICE TO FEMALES.—Femules who value good health should rever be without the Life Medicines, as they purity the blood, remove obstru tions, and give the skin a beatiful, clear, health, and blooming annearance.

It is a fact established by the annual bills of morality, that one half of the children born are cut off before attaining seven years of age, and the truitful source of this mortality is found to exist in that foul state of of the stomach and bowels which produces the generation of Worms. As the safe restorer of Infinite Health, in this critical state, the Life Medicines have long held a distinguished reputation; and for foulness of the stomach and bowels, and convulsions, although Worms may not exist, it is allowed to be superior to any other.

Dr. EVANS does not pretend to say that a nis medicine will cure all diseases that flesh and blood are heir to, but he does says that in all Debilitated and Impaired Constitutions—in Nervous diseases of all kinds, particular ly of the DIGESTIVE ORGANS, and in Incipient Consumption, whether of the lungs or liver, they will cure. That dreadful disease, CONSUMPTION, might have been checked in its commencement, and disappointed its prey all over the land, if the first symptoms of Nervous Debility had been counteracted by the CAMOMILE FLOW-ER chemically prepared tiggether with many other diseases, where other remedies have proved that.

other diseases, where other remedies have proved fatal.

How many persons do we daily find tortured with that dreadful disease, SICK HEADACHE, If they would only make trial of this invaluable medicine, they would perceive that life is a pleasure and not a cource of misery and abhorrence. In conclusion I would warn nervous persons against the abstraction of BLOOD, either by letches, cupping, or the employment of the lancet, Drastic purgatives indelicate habits are almost equally improper. Those tare practices too often resorted to in such cases, but they seldom fail to prove thighly injurious. Certificates of cures are daily received which add sufficient testimony of the great efficacy if this invaluable medicine, in relieving afficted mankind. The above medicine is for ale at Jacob Miller's store, Huntingdon.
