That dreadful dis-case, CONSUMPTION, might have been clucked in its commencement, and disap-pointed its prey all over the land, if the first symptoms of Nervous Debility had been counteracted by the CAMOMILE FLOW-ER chemically prepared; together with many other diseases, where other remedies have proved that. Dratic pargatives in delicate habits are al-most equally improper. Those are prac-tices to fail to prove highly injurious. Certificates of cures are daily received which addsufficient estimony of the great efficacy if this invaluable medicine, in relieving af-ficted makind.
